Annual Index

Authors

Aaron, A. H.: cf. Hartman..... 43

Abbott, A. C. (Ball): Pathology of the thyroid gland of the human fetus and the new-born infant....331

Abbott, A. J. (Van Buskirk): The blood sugar response to epinephrin in thyroid-fed animals.....565

Abderhalden, E. (Buadze): The occurrence of the Abderhalden reaction after parenteral administration of the hypophysis preparation prehormone and of the ovarian hormone follicular 93

Abelin, I.: Effect of diiodotyrosine on the hyperthyroid metabolism..220

Abelin, I. (Jord): Ketonuria in experimental hyperthyroidism.....702

— (Spichtin): Influence of thyroid gland substances on the total creatinine content of the liver and muscle 220

Abelous, J. E. (Argaud): Appearance of a medullary reaction in the cortical substance of an abscessed adrenal 675

Adamberg, L.: Endocrine function of ovarian homoio-grafts and the fundamental laws of ovarian dynamics 205

Allardyce, W. J.: Studies on the chemistry and the physiology of the parathyroid hormone 218

Allan, F. N. (Scherer): Insulin allergy 417

Allan, H.: cf. Dodds..... 86

Allen, E.: Endocrine activity of ovary 570

Alessandri, H.: Studies on the hypotensive action of insulin-free pancreatic extracts 447

Altamirano, J.: cf. Cruz-Coke.....444

Alonza, L.: Influence of roentgen irradiation of thyroid on deaminizing functions of liver in exophthalmic goiter 702

Anselmino, K. J. (Hoffmann): Demonstration of an anti-glycogen substance (thyroid hormone) in the blood of pregnant women.....220

Anselmino, K. J. (Hoffmann): The demonstration of the hormone of the thyroid gland in the blood of pregnant women and the influence of the heightened function of the thyroid gland on metabolism, circulation and nervous excitability in pregnancy 702

Anselmino, K. J. (Hoffman): The relationship of the increased content of the blood of posterior lobe pituitary hormone to the existence of nephropathy and eclampsia in pregnancy 576

— cf. Hoffman 317, 706

Argaud, R.: cf. Abelous.....675

Arias—Aranda C.: cf. Mazzocco....707

Arnaudet, A.: cf. Blanchetiere..... 77

Aron, E.: Influence of ischemia on the evolution of the elements in the mammalian testis. Transformation of Sertoli cells into cells of the interstitial type 679

Aron, M.: Action of the anterior lobe of the hypophysis on the guinea pig ovary 577

— Biological methods for diagnosing over- and under-activity of the anterior lobe of the hypohysis in man 443

— Changes according to age in the thyroid in mammals 331

— Effect of the anterior lobe of the hypophysis on the thyroid in guinea pigs 686

— Physiologic significance of the ovary stimulating hormone associated with extracts of the anterior lobe of the hypophysis.443

— Studies on the indications of the activity of the anterior lobe of the hypophysis according to age and species, by physiologic measurement of the hormone in the body fluids and the agreement of this with the evidence of morphologic activity in the thyroid 312

— The action of the anterior pituitary upon the secretory activity of the thyroid.....565

— The distinction between the hormone which stimulates the thyroid and the substance which stimulates the ovary as found in extracts of the anterior lobe of the hypophysis.....685

— The specificity of the excito-secretory principle for the thyroid contained in extracts of the anterior lobe of the hypophysis...313

— (Dobrzaniecki): Effect of removal of the cervical sympathetic on thyroid function 331

Aron, M. (Van Caulaert and Stahl): Balance between the hormone of the anterior lobe of the hypophysis and of the thyroid within the body under normal and pathologic conditions 577
— cf. Dobrzaniecki 332
— cf. Fontes 705
— cf. Van Caulaert 695
Arnovljevitch, V.: The relations between the sugar and glutathione in the blood of normal and diabetic individuals 587
Arthus, A.: Complete thyroparathyroidectomy and cardiac-moderation 450
— (Jedrzejowska): Parathyroidectomy and vitamin D 450, 700
Artundo, A.: Basal metabolism in hypophysectomized dogs. Specific dynamic action in hypophysectomized dogs 686
— (Mazzocco): Action of the anterior lobe of the hypophysis on the respiratory exchange and the glycogen in white rats.....443
Asher, L. (Klein): Effect of adrenal cortex extract on the development of the testes 199
— (Ratti): Studies on the physiology of glands. CXX. The growth-regulating function of the thymus gland 220
Ask-Upmark, E.: A study of the parathyroid enlargement in osteitis fibrosa genalisata 327
— Parathyroid gland and calcium metabolism 700
— Thyreotoxicosis and tetany.....369
Askey, J. M. (Toland): Blood pressure and goiter 103
Atwell, W. J.: An experimental analysis of certain pituitary-adrenal-gonad relationship 639
— Functional relations of the hypophysis and the brain 242
Aub, J. C.: Critique of endocrine therapy 597

Bacq, Z. M.: cf. Cannon.....439
Baker, S. L.: Transplantation of a teratomatous ovarian tumor in the fowl: Production of a sex hormone by the cells of the transplants 679
Balint, J.: cf. Reiss.....96, 321
Ball, F. E.: Thyrotoxicosis with a normal metabolism early in the course of the disease 703
Ball, H. A.: Autopsy observations on one hundred and sixteen cases of malignant disease, in eighty-nine of which experimental injections of suprarenal cortex were given 559
Ball, R. G. (Greene, Camp and Rowntree): Calcification in tuberculosis of suprarenal glands: roentgenographic study in Addison's disease 559
— cf. Rowntree 300
Ball, R. P.: cf. Abbott.....331
Ballif, L.: cf. Parhon.....91, 212
Barborka, C. J.: Obesity 82
Bard, P.: cf. Lundstrom.....691
Barlow, O. W.: The action of insulin on the perfused frog heart and on the isolated rabbit intestine..214
— (Vigor and Peck): The action of insulin on the frog; influence of dosage, temperature, excision of liver, administration of glucose, sodium bicarbonate and calcium gluconate on reaction of frog to insulin 447
Barnes, B. O. (Carlson and Riskin): Studies on thyroglobulin. I. The digestibility of thyroglobulin 450
— cf. Juhn 333
Barr, D. P.: cf. Behrens.....120
Barral, P. (Roux); Is insulin itself a specific antigen?.....587
Bartlett, W. (Bartlett): An original method of estimating the thyrotoxic states 331
Bartlett, W., Jr.: cf. Bartlett.....331
Bastenie, P.: Origin of Hassall's corpuscles in the pathologic human thymus 591
Baumann, T.: Etiology and clinical aspects of acute suprarenal insufficiency. (Hemorrhages and hypoplasia of suprarenals) 675
Bayless, F.: cf. Moritz.....708
Beau, A.: Endocrines and coxa vara of adolescents 565
Behrens, L. H. (Barr): Alton Giant; hyperpituitarism beginning in infancy 120
Beilby, G. (Carlton): Exophthalmic goiter in children 221
Benetato, G.: The mechanism of the hyperglycemia produced by extracts of the posterior lobe of the hypohysis 313
— cf. Nitzescu 212
Bengtson, B. N.: Pituitary therapy of alopecia. A preliminary report.313
Benhamou, E. (Gilla): The increase of amino acids in the blood after adrenalin in normal individuals..675
Bernard, A. T.: cf. Ionesco.....697
Bernheim, M.: cf. Mouriquand.....701
Bennati, D. (Gautrelet and Halpern): The effect of hypotension on the secretion of an adrenal grafted into the neck.....437
Bennett, C. L.: Pubertas praecox in a girl of four: An attempt to estimate the follicular and anterior Pituitary sex hormones 529

Benoit, J.: Injections of testicular extracts in capons. Quantitative effect of the male hormone on the growth of the comb.....303
— Unilateral castration and compensatory hypertrophy of the remaining testicle in cocks and ducks 440
Berblinger, W.: cf. Zondek.....586
Berchtold, F.: cf. Stockinger.....585
Berg, B. N.: A study of the islands of Langerhans in vivo with observations on the circulation 587
Berkow, S. G.: Culpability of the suprarenals in the sypmtoms and late death from extensive superficial burns 297
Berliand, N. (Rywkin and Ssacharoff): Clinical anatomical biological parallels in Basedow's disease 332
Berman, L.: Endocrine treatment of Paget's disease 109
Bernard, L.: cf. Weiss 591
Bernhard, F.: The appearance of diabetes mellitus after acute pancreatic disease 214
Bernhardt, H.: Influence of hypophysis upon metabolism 208
Bertram, F. (Horwitz and Wahncau): Experimental and clinical investigation on the treatment of diabetes with insulin by mouth. IV. Liver extract as protector of insulin 587
Beutel, A.: cf. Mahler 329
von Beznak, A.: The amount of physiological diffusible calcium in serum of normal and parathyroprivic dogs 703
— The condition of the calcium in the blood serum of normal and parathyroprivic dogs 703
— The effect of parathyroidectomy on the sedimentation rate of the red blood corpuscles 703
Biasotti, A.: cf. Houssay.....95, 211, 317, 326, 678, 690
Bier, A.: The iodine metabolism in Basedow's disease and the explanation of the post-operative reaction following thyroidectomy.....221
Billmann, C.: Iodine content of blood, especially in exophthalmic goiter 704
Binet, L.: cf. Blanchetiere..... 77
Binswanger, H. F.: cf. Soskin.....328
Bisceglie, V.: The effects of hyperhormonization with follicular liquids on hypophysis, thyroid and suprarenals 302
Bischoff, F. (Long): The depletion of muscle sugar by adrenalin. I..297
— — The posterior pituitary hormone in metabolism 313
Bissonnette, T. H.: Studies on the sexual cycle in birds. V. Effects of white light of different intensities upon the testis activities of the European starling (Sturmus vulgaris) 85
Blair, J. E.: cf. Jaffe.....590
Blanchetiere, A. (Binet and Arnaudet): Glutathione in the adrenal during gestation 77
Bland, P. B. (First and Roeder): A comparative study of the Aschheim-Zondek and Mazer-Hoffman tests for early pregnancy 679
Bleicher, M.: Vascularization of the human adrenal 437
— cf. Lucien 299
Blöch, J.: Studies in the intermediary fat metabolism in diffuse parenchymatous lesions of the liver, under the influence of insulin and carbohydrates 587
Blumgarten, A. S.: Low basal metabolic rates in constitutional asthenics without hypothyroidism..704
Bodansky, A.: cf. Jaffe.....590
Boe, J.: Iodine metabolism and excretion after intravenous administration of thyroxine 704
Boeters, H.: Hypophyseal hormone of anterior lobe (prolan) and the male gonad 314
Bokelmann, O. (Scheringer): A contribution to the understanding of the function of the thyroid gland and iodine metabolism in pregnancy 450
Boolemen, Germaine: cf. La Barre.588
Bollman, J. L. (Mann): Enteral administration of insulin to normal dogs 696
Bonciu, O.: cf. Lieure 701
Bonilla, E. (Moya): The value of the cholesterol determination in thyroid patients 704
Boothby, W. M.: cf. Kepler.....104
Bourg, R.: Action of aqueous extracts of human placenta on the genital tracts of young rats of both sexes 303
— A new method for the Aschheim-Zondek reaction: Biological and clinical study 578
— Changes in the ovary and genital tract of kittens produced by "gravidine." Changes in the testes and genital tract of kittens produced by "gravidine"..570
— Changes produced by "gravidine" in the genital tract of immature rats studied by vital staining with injections of trypan blue 571
— Comparative studies of prolonged injections of urine from pregnant women in irradiated and non-irradiated young male rats.680
— Effect of injections of urine from men and children on the genital tract 303

Bourg, R.: Effect of injections of urine from pregnant woman on immature castrated and irradiated male rats 680
— Histologic changes in the genital tract of castrated male rats following repeated injections of urine from pregnant women...570
— Modifications produced by gravadine in the pregnant and non-pregnant adult cat 571
Bowen, B. D.: cf. Hartman.....562
Brabant, H.: cf. Watron.....685
Braier, B.: Bacillus coli vaccine on nitrogen metabolism of hypophysectomized dogs 209
— Influence of adrenalin on nitrogenous metabolism and glycemia of hypophysectomized dogs....199
— Metabolism of nitrogen and sugar in fasting dogs after hypophysectomy 578
— Nitrogen output of hypophysectomized dogs on a meat diet...578
— Nitrogenous metabolism in specific dynamic action of hypophysectomized dogs 209
— Protein metabolism and fasting hypophysectomized dogs 208
— Protein minimum in hypophysectomized dogs 209
— The C/N ratio in hypophysectomized dogs on a diet lacking in vitamin B 314
Bram, I.: Physostigmine salicylate in the treatment of exophthalmic goiter. Observations in two hundred cases 221
— Quinine and iodine in exophthalmic goiter 157
— Relationship of quinine tolerance to thyroid secretion 592
Branion, H. D.: cf. Taylor 330
Braucher, Pela Fay: cf. Riddle....321
Briese, Marie: cf. Parhon.....309
Brieu, T. (Fuchs, Santenoise and Vidacovitch): Action of vagotonin on glycemia 696
— cf. Santenoise 698
Britton, S. W.: Evidence of chief function of adrenal cortex.....633
— Maternal and fetal blood sugar changes under various experimental conditions 324
— Observations on adrenalectomy in Marsupial hibernation and higher mammalian types 437
— (Flippin and Silvette): The oral administration of cortico-adrenal extract 560
— (Silvette): Observations on the cortico-adrenal hormone 77
— cf. Corey 560
Brogan, A. J.: cf. Lerman.....251
Brouha, de Adele: Notes on a hormonal test for pregnancy 304
Brouha, L. (Simonnet): Follicular maturation, corpora lutea and oestrous 686
— cf. Desclin 315
Brown, T. K.: cf. Soule 695
Browne, J. S. L.: cf. Collip..... 86
Brownell, K. A.: cf. Hartman.....
.....79, 298, 521
de Bruin, M.: Observations on metabolism of healthy children with a consideration of the specific dynamic action of food 209
Bryan, A. H. (Gaiser): The influence of diet and the anterior pituitary growth hormone on the growth rate of adolescent rats....686
Bryan, W. R. (Garrey): Contributory factors in parathyroid tetany in dogs; high temperature, panting and overventilation 219
Bryant, A. R.: The effect of total thyroidectomy on the structure of the pituitary gland in the rabbit..439
Buadze, S.: cf. Abderhalden..... 93
Bucciardi, G. (De Niederhäusern): The action of insulin on the muscle contraction of the frog.....214
Buchanan, J. A.: Site of action of iodine in goiter 65
Buchbinder, W. C.: Some cases of so-called "recurrent thyrotoxicosis" 592
Buchheim, W. (Zaleski): Sex hormones and the sympathetic nervous system 440
Buchwald, K. W. (Cori): The action of epinephrine and insulin in frogs under anaerobic conditions..566
— cf. Cori 199, 297, 560
Buckley, O. B.: The effect of subcutaneous injections of trypsin on the blood sugar and on insulin action 587
Burch, J. C. (Williams, Wolfe and Cunningham): Hypophyseal-ovarian relationship 578
— (Wolfe and Cunningham): Experiments on endometrial hyperplasia 541
Bürger, M. (Rückert): The formation of fat from carbohydrates under the influence of insulin 98
Burns, G.: cf. Kunde.....707
Burns, R. K., Jr.: The process of sex transformation in parabiotic amblystoma. II. Transformation from male to female 85
— (Buyse): Effects of hypophysectomy on the reproductive system of salamanders 578
— — The effects of extracts of the mammalian hypophysis upon immature salamanders 443
Busman, G. J.: Cutaneous diseases from the metabolic and endocrine aspect 678
Busquet, H.: Inhibition by heifer serum of the appearance of neutral characters in ovariectomized chickens 680

Butenandt, A.: Chemical investigation of the sex hormone 680
— The physical and chemical properties of the follicular hormone.571
— The preparation of pure follicular hormone from pregnancy..571
Buyse, A.: cf. Burns.....443, 578
Byron, C.: cf. Wishnofsky 100

Caffey, J.: cf. McLean.....438
Cahane, F.: cf. Cahane.....566
Cahane, M.: Changes in liver glycogen in gonadectomized animals.205
— Endocrine function of the pancreas and calcium metabolism.696
— (Cahane): The endocrine function of the salivary glands.....566
— cf. Parhon 219, 453
Calatroni, C. J.: cf. del Castillo.304, 440
Calder, R. M.: Pituitary cachexia (Simmond's disease) treated with anterior pituitary extract 686
Cameron, J. D. S. (Hill): Heart block in toxic goiter 592
Camp, J. D.: cf. Ball.....559
Candela, N.: Follicular, luteinic and mammarian incretotherapy and its influence on the genital tract and on the endocrine system. Experimental study 566
Cannon, W. B.: Studies on the conditions of activity in endocrine organs. XXVII. Evidence that medulliadrenal secretion is not continuous 437
— (Bacq and Moore): Studies on the conditions of activity in endocrine organs. XXVI. A hormone produced by sympathetic action on smooth muscle 439
— cf. Freeman 202
— cf. Rosenblueth 679
Cardini, C.: cf. del Castillo 214
Cardoso, D. M.: cf. Martins.....574
Caridroit, F. (Régnier): Moulting and castration in Rouen ducks...304
Carlson, A. J.: cf. Barnes.....450
Carmichael, H. T.: Squamous epithelial rests in the hypophysis cerebri 314
Carey, B. W.: cf. Trimble.....100
Carlson, A. J.: cf. Knude.....203
Carlton, J. G.: cf. Beilby.....221
Casey, W. R.: cf. Mowrer 431
del Castillo, E. B.: Ovarian grafts in male and female white rats...681
— (Cardini): Effect of insulin on the appearance of the sexual cycle in white rats 214
— (Calatroni): Ovarian grafts in unspayed rats 440
— — The periodic sex cycle and folliculin 304
Castle, W. B.: cf. Means.....105
Castrex, M. R. (Schteingart): Action of the hypertensive and ocytocic principles of the posterior lobe of the hypophysis on basal metabolism 315
Cattaneo, C.: Physiopathology of status thymo-lymphaticus 591
Cattell, M. (Edwards): Epinephrin action in relation to the hydrostatic pressure effect on the contraction of cardiac muscle.....199
Cattell, R. B.: Aberrant thyroid...451
Ceruti, G. (Sapegno): The action of insulin on thermoregulation 216
des Cespédes, C.: cf. La Barre.....697
Challans, Joanna S.: cf. Johnson...278
Chambers, W. H.: cf. Himwich..99, 216
Champy, C. (Gley): The thyroid isthmus separated from the nervous system and remaining functional in rabbits 705
Chang, H. C. (Chen): On the "sympathetic substances" obtained from the gut and other organs of the toad 560
Charipper, H. A.: cf. Haterius.....210
Chatagnon, P.: Effect of castration on the scent glands of the goat..571
Chiefitz, A. B.: Gynecomastia..... 93
Chen, Y. P.: cf. Chang.....560
Chesney, A. M.: cf. Webster.....107
Chiapponi, L.: cf. Montpellier.....568
— cf. Ribiere 310
Choi, M. H.: Homoiotransplantation of the amphibian thyroid anlage..592
Chudoroschewa: cf. Istanamowa...299
Cleveland, R. (Wolfe): A differential stain for the anterior lobe of the hypophysis 579
— cf. Wolfe 696
Clute, H. M.: Clinical aspects of thyroid malignancy 451
Coelho, E.: Thyroxin and the specific dynamic action of sugar.....332
— (Oliveira): Action of thyroxin on the sodium chloride equilibrium of the blood 451
— (Rocheta): Thyroxin and gastric acidity 221
Cole, W. H. (Womack and Ellett): The production of hyperplasia of the thyroid gland by chemical means, with special reference to purine bases and their derivatives.335
Collin, R.: Finer structure of the cells of the hypophysis 687
— Finer structure of the cells of the pituitary gland 687
— (Drouet, Watrin and Florentin): The effect of hypoglycemia on cellular activity of the anterior and posterior lobes of the hypophysis and the tuber cinereum. The effect of hypoglycemia on cellular activity of the thyroid, parathyroids, pancreas, salivary glands and thymus. The effect of hypoglycemia on cellular activity of the spleen and adrenals 566
Collins, W. S.: cf. Koster.....562
Collip, J. B. (Thomson, Browne, McPhail and Williamson): Placental hormone 86

Colombi, C.: The influence of the anterior pituitary hormone on the testicles of guinea pigs.....579
Columba, D.: Insulinemia in obesity and in emaciation 215
Comel, M.: On the relations between strontium and parathyroids.202
Condorelli, F.: Influence of acetylcholine on insulinemia 98
Conklin, C.: cf. McClendon..... 89
Cooley, T. B.: Hyperparathyroidism and similar diseases of bone.....222
Coombs, H. C. (Wortis and Pike): The effects of absinthe on the cat, following bilateral adrenalectomy.560
Cordier, R.: cf. Gerard.....298
Corey, E. L. (Britton): The induction of precocious sexual maturity by cortico-adrenal extract.....560
Cori, C. F. (Cori): Influence of epinephrine and insulin injections hexosephosphate content of muscle 561
— (Buchwald): Effect of continuous intravenous injection of epinephrine on the carbohydate metabolism, basal metabolism and vascular system of normal men.297
— The calorigenic action of epinephrine in frogs before and after hepatectomy 560
— cf. Cori.....199
— (Cori and Buchwald): The mechanism of epinephrine action; changes in liver-glycogen and blood lactic acid after injection of epinephrine and insulin.....199
— cf. Cori.....561
Corkhill, A. B. (Marks): The effect of adrenaline on muscle glycogen.199
Corner, G. W.: cf. Wilson.....576
— Hormonal control of lactation; non-effect of corpus luteum; positive action of extracts of hypophysis 304
Cosin, C. F.: cf. Hurst.....101
da Costa, A. C.: The relations between the cortical and medullary portion of the adrenals in mammals 299
Cottrell, J. E.: Dwarfism and infantilism 687
Courrier, R.: Do large doses of folliculin when injected have an effect on the Graafian follicle?.....
— Folliculin and the uterine changes preparatory to implantation of the egg.....304
— Studies on the antagonism of follicular and luteal hormones..... 86
— The female sex hormones.....571
— (Kehl): Further investigation on the action of folliculin in rabbits carrying corpora lutea.....572
Cowgill, G. R.: cf. Himwich.....706
Cowley, R. J.: The hypoglycemic action of the hypophysectomized dog's blood.....687
Crainiceanu, A.: cf. Daniel.....681
Crane, W.: Chronic thyroiditis.....705
Crile, G. W.: Recurrent hyperthyroidism, neuro-circulatory asthenia and peptic ulcer. Treatment by operation on the suprarenal sympathetic system.....561
Crisera, A.: cf. Racchuisa.....201
Cronin, H. J.: Psychiatric reactions from dysinsulinism in a diabetic..325
Cruickshand, Ethel M.: Factors affecting size and iodine content of the thyroid in fowls.....451
Cruz-Coke, E. (Altamirano): Action of extracts of the anterior lobe of the hypophysis on the chemistry of the liver.....444
Crosby, A. A.: cf. Hartman.....298
Cunningham, R. S.: cf. Burch..541, 578
Cushing, H.: The method of action of pituitrin introduced into the ventricle 687
— The reaction to posterior pituitary extract (pituitrin) when introduced into the cerebral ventricles 579
— The similarity in the response to posterior lobe extract (pituitrin) and to pilocarpine when injected into the cerebral ventricles....580
Cutting, R. A.: cf. Gage.....588

D'Amour, F.: cf. Ihrke.....441
D'Amour, F. E.: cf. Knude.....203
— cf. Spencer.....647, 684
Danelivskii, B. (Wyalkova): The effect of insulin on the sympathetic nervous system..... 98
Daniel, C. (Crainiceanu and Mavromati): Clinical effects of folliculin on the arterial pressure in man. Action of folliculin on arterial pressure after paralysis of the vagus 681
Darley, W.: cf. Draper.....444
Davis, Clara L.: Myxedema with associated primary type of anemia 705
Defauw, J.: Variations in glycogen content of the heart in animals with experimental hyperthyroidism 451
De Jong, H.: Hormonal experimental catatonia 440
Demoor, P. (Slosse): Treatment of goiter, accompanied by hyperthyroidism 592
De Niederhäusern, A.: cf. Bucciardi.214
Derevici, H.: cf. Parhon.....223, 595
Derevici, M.: cf. Parhon.....595
Desclin, L. (Brouha): Histological changes in the hypophysis of guinea pigs during pseudo pregnancy 315
Dessy, G.: Feeding experiments on tadpoles with endocrine glands taken from young and old cattle... 82
Di Benedetto, E.: Action of phloridzin on hypophysectomized toads...315
— Phlorizin in hypophysectomized toads 209

Dickens, F.: The preparation and properties of the gonad-stimulating hormone from the urine of pregnancy 205
Dietel-Heidelberg: Concerning the occurrence, mechanism and fate of the melanophore hormone in the warm-blooded organism 688
Dingemanse, E. (Freud, De Jongh and Laqueur): Concerning the presence of large amounts of female (sex) hormone menformen in the blood of cancer patients (males) 681
— (Freud, Kober, Laqueur and Münch): Purification of the male hormone by high-vacuum distillation 572
— (Freud, Kober, Laqueur, Luchs, Münch): Separation of the male sex hormone from the female hormone, menformone ...205
— (de Jongh): The sexual hormone of the pituitary. Action on female animals 580
Dobrzaniecki, W. (Aron): Effect of stimulation of the cervical sympathetic on thyroid function 332
— cf. Aron 331
Dock, W.: The relative increase in metabolism of the liver and of other tissues during protein metabolism in the rat..... 97
Dodds, E. C. (Greenwood, Allan and Gallimore): Properties of the comb growth promoting substance obtained from testes and urine.. 86
Dohrn, M.: cf. Schoeller.....684
Doisy, E. A. (Thayer): Preparation of theelol 681
Doisy, A.: cf. Thayer.....576
Donelson, E. (Hunscher and Macy): Metabolism of women during the reproductive cycle. IV. Calcium and phosphorous utilization in late lactation and during reproductive rest 304
Dorn, J. H. (Morse and Sugarman): Early pregnancy—a hormone test for its diagnosis 572
Drabkin, C.: cf. Schwarz 310
Dragstedt, C. A.: Ossification in the absence of the parathyroid glands 93
Dragstedt, L. R. (Ellis): The effect of diverting adrenal vein blood into the portal vein on blood sugar 77
Draper, W. B. (Darley and Harvay): The effect of pituitary extract upon the tonus of the human pelvis and ureter and its possible application in the therapeutics of plelitis and related conditions 444
Dreyfus, G.: cf. Labbe.....318
Drouet, P. L.: cf. Collin.....566
Durrant, E. P.: Relation of hysterectomy of long standing to voluntary activity in the white rat.... 86
— cf. Rosenfeld 684
Dubois, R.: cf. Lesne.....700
Dworkin, S.: Insulin and heart rate after sympathectomy and vagotomy 447
— The response of sympathectomized animals to insulin 215

Edmunds, C. W. (Smith): Experimental suprarenal exhaustion ... 78
Edwards, D. J.: cf. Cattell.....199
Ehrstrom, R.: Adiposogenital dystrophy, diabetes mellitus and albuminuria of neurogenic origin; two cases 444
Eidelsberg, J.: Endocrinopathies: thyro-pituitary syndromes; diagnosis and treatment 83
Eisenberg, A. A.: cf. Lazarus.....563
Elmer, A. W.: (Ptaszek): Comparative effect of vasopressin and pituitrin on intestinal peristalsis. Action of ocytocin on peristalsis and the antagonism between vasopressin and ocytocin 580
Fontaine, R. (Hermann): The mechanism for hyperglycemia following lumbar sympathectomy in dogs 567
Ellett, W. H.: cf. Cole.....335
Ellis, J. C.: cf. Dragstedt..... 77
Ellsworth, R.: Secondary alterations in total serum calcium after the administration of glucose and insulin 98
Emanuel, S.: Effects of intraperitoneal implantation of hypophyses from rats castrated before puberty 690
— Mode of action of hypophysis after castration, demonstrated by implantation experiments...315
— Note on the follicular hemorrhages in the Aschheim-Zondek reaction 93
Emmerson, M. A.: cf. Free..... 87
Enachesco, M.: cf. Ionesco.....697
Engelbach, W.: The growth hormone 1
Engle, E. T.: Action of extracts of anterior pituitary and of pregnancy urine on testes of immature rats and monkeys.....506
— Experimentally induced descent of testis in Macacus monkey by hormones from anterior pituitary and pregnancy urine.....513
Erhardt, K.: Hormonal analysis of blood and urine of non-pregnant women after transfusion of blood from pregnant donors 87
Escalier, A.: cf. Labbe.....318
Esch, P.: Hormone therapy with intramuscular injection of pregnancy blood in disturbances of menstruation 305
Ettinger, G. H. (Smith and McHenry): The diagnosis of pregnancy by the Aschheim-Zondek test 93
Eufinger, H. (Wiesbader): The Reid-Hunt reaction and pregnancy....206

von Euler, U. S.: Stimulating action exerted peripherally on cellular metabolism by adrenin. Antagonistic action of ergotamine..562
Evans, F. A.: The level of oxygen exchange in obesity as a factor in planning treatment 592
Evans, H. M. (Meyer and Simpson): Relation of Prolan to the anterior hypophyseal hormones 444
— (Simpson): Hormone of the anterior hypophysis 315
— (Swezy): Ovogenesis and the normal follicular cycle in adult mammalia 305
— cf. Reichert 445
Evans, W.: Case of myxedema with ascites and atony of the urinary bladder 409
Epstein, E. Z.: The influence of hypnotics and thyroxin on diuresis...452

Fabiao, M.: cf. Martins.....309
Fancher, J. K.: Some observations on anterior lobe hyperpituitarism.611
Farguharson, R. F.: cf. Graham.... 95
Fauvet, E.: Histological changes in the liver and kidneys after intoxication with extracts of the posterior lobe of the hypophysis.....580
Fedoroff, P. A.: Clinical course of hyperinsulinemia 325
Ferrari, R.: Influence of the thyroid on edema caused by perfusion with salt solutions 705
Ferreira de Mira, M. (Fontes): Muscular fatigue in rabbits surviving double adrenalectomy 562
Findley, R., Jr.: Failure of irradiated ergosterol to relieve parathyroid tetany 327
First, A.: cf. Bland.....679
Fitch, Alice: cf. du Vigneaud.....699
Flippin, J. C.: cf. Britton.....560
Florentin, P.: Experimental studies and the interpretation of the variations in the color reaction of the colloid in thyroid glands.....593
— Persistence of an embryonic structure in the thyroid of the adult hedge hog 452
— (Grujic): Cytological studies on the guinea pig thyroid 332
— — Experimental regeneration of the thyroid parenchyma 705
— cf. Collin 566
— cf. Watrin 685, 711
Fluhmann, C. F.: Hyperplasia of the endometrium and the hormones of the anterior hypophysis and the ovaries 94
— Hyperplasia of the endometrium and the hormones of the anterior hypophysis and the ovaries.581
— (Morse): Studies on uterine hemorrhage; relation of hemorrhage to events of menstrual cycle and to pathologic findings.306
Foglia, V. G.: Action of drugs on internal secretion of pancreas.....325
Foncin, Mme. R.: Effect of repeated injections of urine from pregnant women on experimental cryptorchid testes in guinea pigs.....307
— Experimental cryptorchidism in immature guinea pigs. Early effects 306
Foncin, R.: Response of experimental cryptorchid testes of immature guinea pigs to repeated injections of urine from pregnant women...681
Fontes, G. (Aron): Qualitative and quantitative action of synthetic thyroxin 705
— (Thivolle): Effect of synthetic thyroxine on urinary carbon and nitrogen. Effect of thyroidectomy alone and associated with injections of thyroxin and the urinary carbon and nitrogen...333
Fontes, J.: cf. Ferreira de Mira....562
— cf. de Mira.....300, 438
Foramitti, C.: The fate of transplanted testicular parenchyma....682
Ford, F. A.: Treatment of Roentgen rays in ovarian dysfunction.....572
Frank, A. H.: cf. Turner..... 92
Frank, R. T.: Rôle of female sex hormone 572
Frattini, B. (Maino): Follicular hormone 307
— — Isolation of the male sexual hormone in crystal form, soluble in water..... 87
Freeman, N. E. (Phillips and Cannon): An unsuccessful attempt to demonstrate humoral action of "vagus substance" in the circulating blood 202
Frei, W. (Emmerson): The calcium content of the serum of cattle with reference to the influence of the sexual organs 87
Freud, J. (de Jongh, Laqueur and Münch): On the male hormone.. 87
— (de Jongh and Laqueur): The effect of the female hormone (Menform) on the plumage of the bird 682
— cf. Dingemanse 205, 572, 681
Frey, E. K. (Kraut and Schultz): A pancreatic circulatory hormone... 98
Friedman, M. H.: Further studies on the mechanism of ovulation... 88
— On the mechanism of ovulation in the rabbit. III. The rate of mechanically ruptured follicles.206
Friedman, J. L. (Nice): Multiple ovaries and the oestrous cycle in the white rat 307
Fuchs, G.: cf. Brieu.....696
— cf. Santenoise 698
Fullerton, C. W.: The cardiac output in hyperthyroidism 452

Gaebler, O. H.: Animal calorimetry. The specific dynamic action of meat in hypophysectomized dogs.210

Gage, I. M. (Ochsner and Cutting): Effect of insulin and glucose on normal and obstructed intestine..588
Gaiser, D. W.: cf. Bryan.....686
Gallant, I. W.: Hyperthyroidism...103
Gallimore, E. J.: cf. Dodds..... 86
Gammon, G. D. (Tenery): Hypoglycemia; the clinical syndrome, etiology and treatment; report of a case due to hyperinsulinism.....215
Gardiner-Hill, H. (Smith): Treatment of ovarian deficiency with ovarian extract (oestrin)..... 88
Gardner, W. U.: cf. Turner.....446
Garcin, R.: cf. Guillain.....316
Garrey, W. E.: cf. Bryan.....219
Gasteiger, H.: Rare ocular changes in thyroidal disturbances.....452
Gautrelet, J.: cf. Bennati.....437
Gavrila, I. (Milhaileanu): The action of the hypertensive principle (vasopressin) and the ocytocic principle (ocytocin) of the posterior lobe of the hypophysis on the blood sugar in man.....689
Gedroyc, M. (Kosowski): Red blood cells and the absorption of certain nutritional and hormonal substances, especially adrenin 297
Geelmuyden, H. C.: Some questions and problems of diabetes research including some evidence of a metabolic-physiological theory of diabetes mellitus 215
Geiger, E.: Mobilization of the muscle glycogen by adrenalin and the resynthesis of lactic acid in the liver 200
Gellerstedt, N. (Grill): A clinical and anatomic contribution to the knowledge of combined diabetes mellitus and insipidus; report of a case treated with insulin and salyrgan in which the patient died with symptoms of hypoglycemia..447
Gerard, P. (Cordier and Lison): On the nature of the chromaffin reaction 298
Gerschmann, R.: Calcium and phosphorus in plasma of hypophysectomized dogs 210
— The parathyroids and decreased blood calcium following fluorine.222
— Urinary elimination of phosphates and phenol in fasting hypophysectomized dogs 316
Gilbert-Dreyfus: Hyperthyroidism and its treatment 222
Gibert, S.: cf. Rathery 326
Gilla, R.: cf. Benhamon.....675
Giusti, L.: cf. Houssay....307, 689, 690
Gley, E.: cf. Champy 705
Globus, J. H.: cf. Strauss.....323
Gnagi, W. B.: cf. Womack.....218
Gold, E.: Effect of radiation in a case of pseudohermaphroditism with malignant adrenal cortical tumor 675
Goldburgh, H. L.: cf. Mohler 697
Goldfarb, W.: cf. Himwich.....706
Goldzieher, M. A.: Nodular hyperplasia of adrenal medulla in hypertension 20
— (Gordon): Syndrome of adrenal hemorrhage in new-born.....165
— (Kaldor): Experimental studies concerning the rôle of the hypophysis in water metabolism.. 94
— cf. Koster 562
Goormaghtigh, N. (Heymans): Parathyroid hypertrophy after denervation of the carotid sinus and the cardio aortic zone 327
Gordon, C.: cf. Hogben 95
Gordon, M. B.: cf. Goldzieher.....165
Gostimirović, D.: Pregnancy reaction in juvenile male mice from injection of urine containing the sex hormone from the anterior lobe of the hypophysis 316
— The "Prolan" output of carcinomatous women after radiation treatment 689
Gottesman, J. M. (Perla): Effect of injections of cortin on resistance of suprarenalectomized rats to large amounts of histamine..... 78
— — Immunological studies in relation to suprarenal gland. VII. Effect of bilateral suprarenalectomy on acquired resistance in rats 78
— cf. Perla 79, 80
Grabowski, W.: Roentgen therapy in menopause 682
Graham, D. A. L. (Farguharson): Cases of Simmond's disease 95
Graham, E. A.: cf. Womack.....218
Grant, Madeleine P.: Mechanism of colloid release from urodele thyroid during diagnostic stages of metamorphosis (Amblystoma jeffersonianum, Amblystoma opacum).103
Greenberg, D. M.: cf. Gunther.....328
Greene, C. H. (Rowntree, Swingle and Pfiffner): Metabolic studies in Addison's disease: The effect of treatment with cortical hormone of the suprarenal gland 675
— cf. Ball 559
— cf. Rowntree 300
Greene, C. W.: cf. Hartman.....562
Greene, M. F.: cf. Kunde.....707
Greenwood, A.: cf. Dodds..... 86
Grönlund, L.: cf. Räiha 698
Grueter, F.: cf. Stricker.....213
Gruhzit, O. M.: Gland extracts in experimental carcinoma and sarcoma of albino rats 302
Grujic, M.: cf. Florentin.....332, 705
Gruter, F.: Action of anterior pituitary extract on small laboratory and domestic animals 316
Guerriero, C.: Morphological study of the uterine horns during sexual repose in immature, adult and castrated rabbits. The structure of the epithelum of the uterine horn during the follicular and lutein stages of ovarian activity.....682

Guillain, G. (Lechelle and Garcin): Increase in number of blood cells associated with certain syndromes of hypophyseal and hypophyseal-tuber regions 316
Guisti, L.: cf. Houssay 203, 211
Gunther, L. (Greenberg): The diffusible calcium of the blood stream in tetany 328
Gustavson, R. G. (Van Dyke): Further observations on the pregnancy response of the uterus of the cat 206
— cf. Knude 203
— cf. Spencer 647, 684

von Haam, E. (Thatcher): Relation of adrenal glands to relative erythrocyte volume 666
Halpern, N.: cf. Bennati 437
Hannan, J. H.: Further observations on ovarian transplantation 307
Harris, R. H.: The Coffey-Humber extract of suprarenal cortex substance: A clinical study of four hundred and fifteen patients with malignant tumors who received experimental injections 298
Harris, Seale: Hyperinsulinism and dysinsulinism (Insulogenic hypoglycemia) 29
Harrow, R.: cf. Palmer.....701
Hartley, E. C.: The tetanoid syndrome in pregnancy 573
Hartman, C. G.: Phylogeny of menstruation 573
Hartman, F. (Brownell): The vital hormone of the adrenal cortex.... 79
Hartman, F. A. (Aaron): Cortin in Addison's disease 43
— (Bowen, Thorn and Greene): The vital hormone of the adrenal cortex 532
— (Brownell and Crosby): The relation of cortin to the maintenance of body temperature....298
— (Brownell and Lockwood): Studies indicating function of cortin...521
— (Thorn and Potter): Cortin in case of possible adrenal insufficiency during pregnancy 155
Hartman, G. C. (Squier): The follicle stimulating effect of pig anterior lobe on the monkey ovary. 95
Harvey, J. L.: cf. Draper.....444
Haterius, H. O. (Charipper): Experimental studies of the anterior pituitary. II. The occurrence of pregnancy cells in mice following continuous anterior-lobe administration 210
— (Nelson): Experimental studies of the anterior pituitary 689
Hauptstein, P.: Experimental and clinical studies concerning the action of hormones in gynecology.. 83
Haurowitz, F.: cf. Reiss..... 96
Hayes, F. W.: cf. Himwich.....210
Heller, R. E.: Cowper's gland and its reaction to castration and to different sex-hormone conditions.683
— Spontaneous activity in male rats in relation to testis hormone..626
Hellwig, C. A.: Iodine deficiency theory of goiter 705
— Iodine deficiency and goiter; influence of a diet poor in iodine on the thyroid gland in white rats 103
Helpler, Opal E.: cf. Simonds.....596
Herlant, M.: Effect of injections of urine from pregnant women on the genital tract of the hibernating male hedgehog. Effect of injections of urine from pregnant women on the genital tract of the hibernating female hedgehog.....683
Hermann, H.: cf. Tournade...565, 677
Hermann, L. G.: cf. Fontaine.....567
Herzfeld, E.: The influence of hypophyseal preparations and various proteins on the specific dynamic actions of proteins 316
Hess, A. F. (Smith): Excessive ultra-violet irradiation; effect on the nutrition and the endocrine glands of rats 567
Heymans, C.: cf. Goormaghtigh...327
Hill, I. G. W.: cf. Cameron.....592
Hill, M. (Parkes): On the relation between the anterior pituitary body and the gonads. II. The induction of ovulation in the anoestrous ferret 690
— — Relation between the anterior pituitary body and gonads. III. Fractionation and dilution of ovary-stimulating extracts 210
Hillmann, M. L.: Cholesteremia in certain diseases of endocrine glands 593
Himmelberger, L. R.: Thyroid hormone in blood and urine 264
Himwich, H. F. (Chambers, Koskoff and Nahum): Studies in carbohydrate metabolism. II. Glucose lactic acid cycle in diabetes.....99, 216
— (Goldfarb and Cowgill): Studies in the physiology of vitamins. XVII. The effect of thyroid administration upon the anorexia characteristic of lack of undifferentiated vitamin B 706
— (Hayes): Effects of posterior pituitary extracts on basal metabolism 210
— (Spiers): The effects of adrenalin, ephedrine, and insulin on blood fat 302
Hinchberger, G.: Investigations on the transplantation of thyroid in the guinea pig 706
Hisaw, F. L.: cf. Meyer 655
Hochrein, M. (Keller): The effect of adrenalin and substances related to adrenalin (sympathol and ephetonin) upon the circulation..437

Hockett, A. J.: cf. Thienes.....213
Hofbauer, J.: Relation of anterior lobe of the hypophysis to cancer of the uterus 211
Hoffmann, F. (Anselmino): Demonstration in the blood of pregnant women of a substance increasing basal metabolism 706
——The demonstration of the antiduretic component of the hypophyseal posterior lobe hormone and a substance producing blood pressure in the blood of nephropathic and eclamptic individuals...317
— cf. Anselmino.....220, 576, 702
Hoffman, J.: The effect of anterior hypophyseal implants upon senile ovaries of mice 445
Hogben, L. (Gordon): Studies on the pituitary. VII. The separate identity of the pressor and melanophore principles 95
— (Slome): Pigmentary effector system. VI. The dual character of endocrine coördination in amphibian color change 445
Hohlweg, W.: cf. Schoeller.....684
Horak, J.: Case of Addison's disease successfully treated with cortin and adrenal cortex extract 285
Horsters, H.: The effect of gland preparations on the metabolism of rabbit 202
Horwitz, F.: cf. Bertram.....587
Hoskins, R. G. (Jellinek): Studies on thyroid medication. I. Some conditions determining the haematopoietic effect 455
Houssay, B. A.: Action of the hypophysis on sex glands of fish and reptiles 581
— (Biasotti): Diabetogenic substance of the anterior pituitary 95
——Hypophysectomy and pancreatic diabetes in toads 211
——Pancreatic diabetes and the pituitary in the dog.....678
——Pancreatic diabetes in hypophysectomized dogs. Diabetic conditions in dogs without hypophysis or pancreas.326
——Phlorizine diabetes in dogs deprived of their hypophysis.317
——The hypophyseal substance which increases pancreatic diabetes 690
— (Giusti): Function of the hypophysis and of the region of the infundibulum and tuber in the toad 689
— (Giusti and Lazcano-González): Action of ovarian graft in males on the seminal vesicles..206
————Hypophyseal implantation and stimulation of the sex glands and function in the toad 690
Houssay, B. A. (Giusti and Lazcano-Gonzales): Implantation of pituitary and hyperfeminization of guinea pigs with ovarian graft...211
————Influence of ovarian grafts on the seminal vesicles...307
— (Lazcano-González): Pituitary and Bidder's organ 211
——The hypophysis and Bidder's organ 582
— (Marenzi): Cortical adrenal extract and sensitiveness of adrenalectomized rats to intoxication 200
——Extract of adrenal cortex protects decapsulated rats against toxins 562
— (Mazzocco and Biasotti): Blood iodine in hyposectomized dogs.690
— (Royer and Orias): Hemoglobin and red blood cells of hypophysectomized dogs 212
Hoxie, G. H.: A case of parathyroid deficiency 358
Huddleston, O. L.: cf. Whitehead..312
Humphrey, R. R.: Studies on sex reversal in Amblystoma. V. The structure of ovaries of A. tigrinum subjected for long periods to the influence of a testis resident in the same animal 206
Hunscher, H. A.: cf. Donelson.....304
Hurd, G. B.: cf. Novak.....319
Hurst, A. F. (Cosin): Hyperparathyroidism with hyper calcaemia and decalcification of bones.....101
Hurxthal, L. M. (Menard): Cardiovascular system in goiter.....104
Hutton, J. H.: Relation of endocrine disorders to industrial medicine..567
Hyman, A. S.: cf. Parsonnet.....217

Ihrke, I. A. (D'Amour): The influence of testis hormone upon the oestrous cycle in the rat.....441
Ingham, S. D. (Nielson): Thyroid psychosis. Difficult in diagnosis..453
Ionesco, D. (Bernard and Enachesco): Contraction of the spleen induced by insulin 697
Irwin, O. C.: cf. Nice.....439
Istanamowa, T. (Chudoroschewa): Action of adrenaline on the red blood picture 299

Jacobs, H. R. D.: cf. Samson.....677
Jackson, A. S.: Blood picture in six hundred cases of goiter.....593
Jackson, C. M. (P'an): Effects of dietary deficiency of iodin upon thyroid and parathyroid glands in the rat 146
— (Smith): The effects of deficient water-intake on the growth of the rat 83
Jacobsohn, K.: cf. de Mira.....300

Jaffe, H. L. (Bodansky and Blair): Rate of decalcification and the sites of bone lesions in experimental hyperparathyroidism 590
Janoschek, A.: cf. Staffe.....442
Janssen, S. (Loeser): Pituitary anterior lobe powder and ovary....212
—— The efficiency of the anterior pituitary lobe by oral administration 96
Jaquerod: The treatment of Basedow's disease with myxedematous goiter 452
Jedrzejowska, A.: cf. Arthus..450, 700
Jellinek, E. M.: cf. Hoskins.....455
Jenkins, T. A.: cf. Steinhaus.....569
Johnson, Adelaide: cf. Johnson....299
Johnson, G. E. (Challans): Ovariectomy and corpus luteum studies on rats and ground squirrels.....278
Johnson, J. L.: cf. Wilder.....102
Johnson, V. (Johnson): The secondary rise in blood pressure following peripheral splanchnic nerve stimulation 299
Johnston, R. L.: cf. Lower.....574
Jolly, J. (Lieure): Influence of castration on the involution of the thymus 701
—— Influence of pregnancy on thymus 102
Joltrain: Use of insulin in vagotonia and sensitization to insulin..448
Jonas, L.: cf. Leopold 590
Jones, C. M.: cf. Urmy 449
de Jongh, S. E.: Action of the sex hormone of the hypophysis on male animals 318
— (Laqueur): Antagonism of menformon and hormones of anterior lobe of the pituitary.....318
— cf. Dingemanse 580, 681
— cf. Freud 87, 682
Jordi, A.: cf. Abelin.....702
Jourdan, F.: cf. Tournade 677
Jung, A.: cf. Leriche 591
Juhn, Mary (Barnes): The feather germ as indicator for thyroid preparations 333

Kabak, J. M.: Masculine sex hormone from urine and its assay by the comb method 307
Kahn, R. H.: A note on the problem of the oestrus-cycle in parabiotics 307
Kaiwa, T.: cf. Yen.....201
Kaldor, J.: cf. Goldzieher..... 94
Kallas, H.: Hyperfeminization, the anterior lobe of the hypophysis and parabiosis 690
— (Lipschütz): Hyperfeminization in rabbits 308
— cf. Lipschütz 90
Karlik, L. N. (Robinson): The relation between the pituitary and tuber cinereum. The essential nature of the pituitary 691
Karplus, H.: Silver impregnation of the capillary endothelium of the anterior lobe of the hypophysis...318
Kay, H. D.: cf. Taylor 330
Kehl, R.: Action of mammalian folliculin on the oviduct of turtles...4 1
— cf. Courrier 572
Keller, J.: cf. Hochrein.....437
Kelly, G. L.: Effects of injections of female sex hormone (oestrin) on conception and pregnancy in guinea pig 88
Kemp, W. N.: Treatment of early vomiting of pregnancy with suprarenal cortex. With case reports..434
Kenyon, Josephine H.: Hyperglycemia in hypopituitarism, with glandular treatment 582
Kepinov, L. (Petit-Dutaillis): Physiological studies on insulin..... 99
Kepler, E. J. (Boothby): Creatinuria in hyperthyroidism 104
Kimball, O. P.: Prevention of goiter in Detroit and Cleveland.....594
Kirby, D. B.: Calcium in relation to cataract. I. In vitro.....328
— Calcium in relation to cataract. II. In vitro 328
Kiss, A.: The locally limited action of hormones, particularly that of pituitrin, upon the water exchange 212
Klein, M.: Effects of injections of an active material extracted from the corpus luteum on the genital tract of normal and castrated females 573
— Reactions of the ovary to the injections of the placenta. Is the substance in the placenta which reacts on the ovary a hormone of the anterior lobe of the hypophysis? 683
Klein, O.: cf. Asher 199
Klein, W.: Specific dynamic action in Graves' disease 706
Knude, M. M. (D'Amour, Gustavson and Carlson): The effect of estrin administration on the reproductive and blood vascular systems: the thyroid, thymus, hypophysis, adrenals, kidneys, liver and spleen 203
Kober, S.: cf. Dingemanse.....205, 572
Koch, F. C.: Extraction, distribution and action of testicular hormones 441
— cf. Womack 267, 273
Koehler, A.: cf. Zerfas..... 82
Komant, W.: The diazo-reaction of thyroxine and its inhibition by constituents of the blood.....222
Kommerell, B.: The dependence of thyroxine effect upon nutrition...594
Korabelnikowa, A.: cf. Stschedrowitzky 569
Koskoff, Y. D.: cf. Himwich....99, 216
Koskowski, W.: cf. Gedroyc.....297

Koster, H. (Goldzieher, Collins and Victor): Operative treatment of adrenal cortical obesity 562
Kostowiecki, M.: The relations between Hassalls corpuscles and the blood vessels in the thymus of the human foetus 331
Kotowa, O.: cf. Larionov 567
Kraft, Ruth: cf. Nice 439
Krantz, J. C.: cf. Silver 449
Kraul, L.: Certain new observations on the action of the anterior pituitary 691
Kraut, H.: cf. Frey..... 98
Krizenecky, J.: New experiments on the antagonism between the thymus and the thyroid 594
Kun, H.: cf. Novak.....694
Kunde, M. M. (Greene and Burns): Blood changes in experimental hypo- and hyper-thyroidism (rabbit).707
Kurzrok, R.: Estimation of estrin and the follicle-stimulating hormone in urine as an index of therapy in menstrual dysfunction 361
— Follicular hormone in urine as index of therapy in menopause.366
Kuschinsky, G.: Studies on sympathol, a new adrenalin-like substance 438

La Barre, J.: Variations in insulin secretion during intrapancreatic hyperglycemia. Variations in insulin secretion during extrapancreatic hyperglycemia 697
— (des Cespédes): Variations in gastric secretion during insulin hypoglycemia 697
— (Boolemen): The influence of intense secretory activity in the pancreas on reduction of blood sugar by insulin. On the causes of the reduction in output of insulin secretion seen during excessive external secretion of the pancreas.....588
— cf. Zunz 570
La Barre, Jean (Patalano): Note on the coagulation properties of the posterior lobe of the hypophysis..445
Labbe, M.: Diabetic resistance to insulin treatment 216
— (Escalier and Dreyfus): Acromegaly and diabetes 318
Laclau, N. C.: Growth of tumors in decapsulated white rats 676
Lacqueur, E.: cf. de Jongh.....318
Laffont, A.: Indications and technique for the sterilization of the woman-procedure. Biological methods 90
Lambie, C. G. (Wiesner): On the relation between the hormones of the anterior lobe of the pituitary and clinical syndromes 318
Laqueur, E.: cf. Dingemanse..... .....205, 572, 681
— cf. Freud 87, 682
Larionov, W. T. (Kotowa): Condition of the thyroids of pigeons fed desiccated anterior hypophysis...567
Lascano-Gonzales, J. M.: cf. Houssay 307, 582, 690
Lauber, H. J. (Ramm): Prognosis and therapy of arthropathia ovaripriva 308
Laurent, Y.: cf. Rathery 326
Lautier, R.: Contribution to the study of the etiology of goiter...333
Lawrence, R. D. (McCance): The effect of starvation, phloridzin, thyroid, adrenalin, insulin and pituitrin on the distribution of glycogen in the rat.....567
Lazarus, J. A. (Eisenberg): Tumors of the adrenal gland 563
Lazcano-González, J. M.: cf. Houssay 211
Lazcano-González, L.: cf. Houssay.206
Lechelle, P.: cf. Guillain.....316
Le Grand, A. (Ramos): The action of synthetic thyroxin on the chronaxie of "gastrocnemiussciatic" preparations of Rana temporaria 333
Leites, S.: Thyroxin, fat and lipoid metabolism 333
Lemaire, A.: cf. Loeper.....334, 676
Leonard, S. L.: The nature of the substance causing ovulation in the rabbit 308
— cf. Meyer 655
Leopold, E. J.: Diabetes in the negro race 216
Leopold, S. S. (Jonas): Chronic adult idiopathic tetany 590
Lepine, P.: Effect of extracts of the anterior lobe of the hypophysis when given by mouth 691
— Effect of large doses of anterior hypophysis lobe extract on the reproductive ability of the rat..582
— The comparative action of extracts of the anterior lobe of the hypophysis on the appearance of puberty and growth in rats and mice 691
Leriche, R. (Jung): Treatment of scleroderma by parathyroidectomy 591
Lerman, J. (Brogan): Renal function in exophthalmic goiter and myxoedema 251
— (Means): Gastric secretion in exophthalmic goiter and myxoedema 707
— — Iodin in exophthalmic goiter. A comparison of the effect of ethyl iodid and potassium iodid 104
— — Treatment of anemia of myxoedema 533
— cf. Means 105
Leschke, E.: Importance of sympathetic system in metabolism.....678

Lesne, E. (Dubois and Simonnet): The effect of irradiated ergosterol on tentany resulting from parathyroidectomy in rabbits.....700
Levin, L.: cf. Thayer.....576
Levine, S. E. (Marples): The respiratory metabolism in infancy and in childhood. XII. A biometric study of basal metabolism in normal infants 568
Leulier, A. (Revol): The distribution of lipoidal phosphorous in the adrenal glands of certain mammals 676
Levai, M.: Oral administration of bismuth-insulin for gastroduodenal troubles 697
Lewis, J. K. (McEachern): Persistence of an accelerated rate in the isolated hearts and isolated auricles of thyrotoxic rabbits; response to iodides, thyroxine and epinephrine 105
Lichtenstern, R.: The lasting effects of transplanted testicles.....683
Lieure, C. (Bonciu): Studies on the histogenesis of the thymus. Histologic reconstruction of thymus grafts 701
— cf. Jolly 102, 701
Lipschütz, A.: Experimental basis of ovarian transplantation 207
— Note on the biological estimation of folliculin 684
— On some fundamental laws of the dynamics of sex 90
— Terminology of the female sexual hormone 573
— The follicular hormone 90
— (Kallas): New experiments on the transplantation of dried ovary 90
— (Veshnjakov): On the occurrence of oestrin in the urine of the pregnant cow 573
— — Oxygen use of the isolated ovary of the mammal 90
— (Veshnjakov and Wilckens): Folliculin in the urine of pregnant cows 684
— cf. Kallas 308
Lison, L.: cf. Gerard 298
Lisser, H.: cf. Reilly 337
Lockwood, J. E.: cf. Hartman.....521
Lockwood, W. W.: cf. du Vigneaud.699
Loeb, L.: Specificity in action of anterior pituitary of different mammals as well as of urine of pregnant women on sex organs and thyroid glands of immature female guinea pigs 129
Loeb, R. O. (Shorr and Richardson): Responses to injection of epinephrine in hepatic disease 203
Loeper, M. (Lemaire and Patel): Effect of adrenin and acetyl-choline on the pressure of the spinal fluid 676
Loeper, M. (Lemaire and Tonnet): Effect of certain therapeutic measures on the protein equilibrium of the thyroid 334
Loeser, A.: Pharmacological method for the valuation of the action of the anterior lobe of the hypophysis 318
— Properties and durability of powdered anterior pituitary lobe..582
— cf. Janssen 96, 212
Loewe, S. (Ross and Rothschild): The coexistence of the male and female sex hormone 684
Lomas, C. H.: cf. Turner..... 92
Long, J. A.: cf. Pencharz.....575
Long, M. Louisa: cf. Bischoff..297, 313
Lopatina, E.: cf. Stschedrowitzky..569
Louyot, P.: cf. Santenoise.....698
Lower, W. E. (Johnston): Further studies on experimental work on probable causes of prostatic hypertrophy 574
Luchs, A.: cf. Dingemanse.....205
Lucien, M. (Bleicher): Determination of the area for irradiation of the adrenal gland 299
Lukacs, J.: Does the hormone of the thyroid gland pass into the mother's milk? 222
— Effect of insulin and epinephrine on the sugar content of the cerebrospinal fluid 448
Lundstrom, Helen M. (Bard): Hypophysial control of cutaneous pigmentation in an elasmobranch fish 691
Lutz, B. R.: cf. Wyman.....677
Lyons, W. R. (Van de Carr): Immunologic aspects of the sexual cycle; anaphylactic studies with mammalian follicular fluid.....574

MacCarty, W. C.: Pathological classification of goiter and its clinical significance 453
MacDowell, E. C.: cf. Smith.....213
Macht, D. I. (Stickels): Effect of oestrin and lutein combinations on uterus of the mouse 441
Macy, I. G.: cf. Donelson.....304
Mahler, P. (Beutel): Effect of parathyroid extract on tonus and peristalsis in the stomach and intestines 329
Maiman, R. M.: The centers of the hypophysis cerebri 692
Maino, M.: Absorption of follicular hormone through the mucous membrane of the gastro-intestinal tract 309
— cf. Frattini 87
Maino, M. M.: Gastric absorption of the follicular hormone 207
— cf. Frattini 307
Malmejac, J.: Tournade.....302, 565
Mandl, G.: Acute suprarenal insufficiency with aspects of acute peritonitis 79

Mann, F. C.: cf. Bollman.....696
— cf. Priestley 223
Manoukine, J.: The spleen, an endocrine organ 701
Marañon, G.: The critical intersexualities 89
Marenzi, A. D.: cf. Houssay...200, 562
Markowitz, B.: Focal cyclic growth as a factor in production of nodular goiter 594
— Pathogenesis of goiter.....594
Markowitz, J.: cf. Priestley.....223
Marks, H. P.: cf. Corkhill 199
Marples, E.: cf. Levine.....568
Martin, E.: The inhibitory action of "Prolan" (pituitary anterior lobe hormone) 212
Martin, S. J.: cf. Meyer.....655
Martins, R. (Cardoso): Seminal vesicle grafts in mice.....574
Martins, T.: Functional differences in the hypophysis associated with sex 319
— Influence of the seminal epithelium on the hypophysis 309
— Ovulation and precocious puberty following parabiosis 582
— Parabiosis and ovarian grafts...684
— The use of rabbits to test the hypophyseal hormone and that of pregnancy 693
— (Fabiao): Ovulation in pregnant rabbits after the injection of urine from pregnant women...309
— (Rocha): Effect of castration, grafts and implantation of the gonad on the anterior lobe of the hypophysis 445
— (Rocha): Regulation of the hypophysis by the testis 583
— — Regulation of the hypophysis by the testicle. Experiments with parabiosis 693
Matsubara, M.: The secretion of the small intestine. II. The effect of insulin and adrenaline upon the secretion of the small intestine and its mechanism 302
Mauriac, P.: Action of insulin on the increased blood cholesterin in nephritic rabbits 588
Mavromati, L.: cf. Daniel.....681
— cf. Parhon 106
Mayer, L. H.: Treatment of diabetes mellitus in the presence of other acute febrile diseases..... 99
Mazzocco, P. (Arias-Aranda): Iodine content of the air, soil, water and food in a region of endemic goiter. The quantity of iodine eaten daily by the inhabitants of Salta. Iodine content in sheep thyroids in the province of Salta and along the sea-coast 707
— cf. Houssay 690
McCance, R. A.: cf. Lawrence.....567
McClendon, J. F. (Myrick, Conklin and Wilson): Ovarian hormone and metabolism 89
McEachern, D.: cf. Lewis.....105
McGowan, J. P.: On the nature and structure of the suprarenal cortex.563
McGovern, B. E.: Epileptoid attacks and hyperinsulinism 293
— Somnolence associated with pituitary cachexia 402
McHenry, E. W.: cf. Ettinger..... 93
McIntyre, A. R. (Van Dyke): The distribution and concentrations of water and halides in the blood and urine during diuresis-inhibition by pituitary extract 319
McJunkin, F. A. (Rall and Singer): Effect of adrenaline chloride on the proliferative activity of the cells of the adrenal medulla.....635
McKinney, J.: The Lawrence-Biedl syndrome 693
McLean, S. (Caffey): Endemic purpuric meningococcus bacteremia in early life. The diagnostic value of smears from the purpuric lesions 438
McPhail, M. K.: cf. Collip..... 86
McQuarrie, I. (Peeler): The effects of sustained pituitary anti-diuresis on epilepsy 693
Means, J. H. (Lerman and Castle): Co-existence of myxedema and pernicious anemia 105
— cf. Lerman 707, 533, 104
Menard, O. J.: cf. Hurxthal 104
Merland, P. A.: Golgi apparatus and vacuoles in the adrenal of pregnant guinea pigs 676
Metz, R. D.: Insulin in malnutrition.448
Meyer, H. H.: Place and manner of thyroxin action 708
Meyer, P. E.: The action of insulin on gastric secretion 217
Meyer, R. K. (Leonard, Hisaw and Martin): Influence of oestrin on gonad-stimulating complex of anterior pituitary of castrated male and female rat 655
Meyer, K.: cf. Evans 444
— cf. Reichert 445
Meyer-Nobel, K.: Influenciation of a case of diabetes insipidus through corpus luteum extract...326
Migliavacca, A.: Effect of insulin on the ovary 309
Milcou, S. M.: Should the carotid body be classed as a paraganglion? 300
Milhaileanu, C.: cf. Gavrila.....689
Mills, C. A.: Climate as a potential factor in the etiology of exophthalmic goiter and other metabolic diseases 52
— Diabetes mellitus; sugar consumption in its etiology 99
de Mira, F. (Fontes and Jacobsohn): Effect of an extract from the adrenal cortex on the survival of decapsulated guinea pigs 300
— — Effect of extracts of the adrenal cortex on the survival of decapsulated guinea pigs....438

Miyake, T.: The influence of the thyroid gland upon the poisonous action of various drugs.....334
Mohler, H. K. (Goldburgh): Diabetes mellitus with resistance to insulin and failure to obtain clinical improvement from its use. Report of cases 697
Molfino, F.: Glycemia in relation to x-ray irradiation of the adrenal 676
Moller, K. O.: Dietetic treatment of hyperthyreosis 334
Monguio, J.: cf. Weiss.....591
Montpellier, J. (Chiapponi): Effect of folliculin on the anterior lobe of the hypophysis 568
Moore, C. R. (Price): Some effects of fresh pituitary homo-implants and of the gonad-stimulating substance from human pregnancy urine on the reproductive tract of the male 583
——Gonad hormone functions, and the reciprocal influence between gonads and hypophysis with its bearing on the problem of sex-hormone antagonism 574
— (Samuels): The action of testis hormone in correcting changes induced in the rat prostate and seminal vesicles by vitamin B deficiency or partial inanition..441
Moore, R. M.: cf. Cannon.....439
Mora, J. M.: Periodic paralysis occurring in course of exophthalmic goiter 407
Morato, M. J. X.: Some results with the use of the silver impregnation method in studying the hypophysis 212
Moritz, A. R. (Bayless): Papilliferous tumors of the thyroid gland and of aberrant thyroid tissue....708
Morris, R. S.: Thyrotoxic circulatory symptoms with low metabolic rate 595
Morse, Dorothy L.: cf. Fluhmann..306
Morse, Jean R.: cf. Dorn.....572
Mouriquand, G. (Bernheim): The physiologic and pathologic rôle of the thymolymphatic system.....701
Mowrer, O. H. (Casey): A note on relationship between nystagmus duration and thyroid condition....431
Moxon, G. F.: cf. Murphy..... 99
Moya, A.: cf. Bonilla.....704
Mukherjec, H. N.: The production of hypoglycemia in rabbits by oral administration of precipitated insulin 217
Müller, C.: Experimental justification for the functional relation of the adrenal cortex to the sex organs 300
Münch, A. P. W.: cf. Dingemanse.. .....205, 572
— cf. Freud 87
Munteanu, N.: cf. Nitzescu.....583
Murphy F. D. (Moxon): Diabetes mellitus and its complications. An analysis of 827 cases 99
Myrick, L.: cf. McClendon..... 89

Nahum, L. H.: cf. Himwich...99, 216
Nastase, A.: cf. Zaharescu-Karaman 443
Nelson, W. O. (Pfiffner): Studies on physiology of lactation. I. Relation of lactation to ovarian and hypophyseal hormone 84
— cf. Haterius 689
Neumann, H. O.: Anterior hypophyseal hormone (prolan) and the male gonad 319
Neumark, S.: Effect of insulin on the blood cholesterine in non-diabetics 303
Nevalonnyj, M. (Podhradsky): Influence of thyroid and thymus on skeleton formation in Italian partridges 105
Nibler, C. W.: cf. Turner..... 92
Nice, L. B. (Irwin and Kraft): Coagulation time of the blood of adrenalectomized 439
— cf. Friedman 307
Nielson, J. M.: cf. Ingham.....453
Nitzescu, I. I.: Effect of different substances from the posterior lobe of the hypophysis on the coagulation of the blood 319
—Effect of parathyroid extract injected into the cerebro-spinal fluid 700
— (Benetato): The action of hypertensive and ocytocic substances from the posterior lobe of the hypophysis on the fat in the blood 212
— (Munteanu): The mechanism of the action of pituitrine. Effect of extracts and of substances of the posterior lobe of the hypophysis on the lactic acid of the blood 583
— (Popoviciu): On the action of irradiated ergosterol and its products on tetania parathyreopriva 591
Noether, P.: Pituitary and ovulation in the hen.....583
Nonidez, J. F.: The origin of the "parafollicular" cell, a second epithelial component of the thyroid gland of the dog.....708
Novak, E. (Hurd): The use of an anterior pituitary luteinizing substance in the treatment of functional uterine bleeding.....319

Novak, J. (Kun): Researches with anterior lobe of the hypophysis from urine of pregnancy and with anterior lobe pituitary substance upon various experimental animals 694
Novick, N.: Native complement in hyperthyroidism 105

Ochsner, A.: cf. Gage.....588
Ohato, S.: On the adrenalin content in suprarenals and the amount of the adrenalin-like substance in the serum of guinea-pigs fed on vitamin C free diets.....439
Ohguri, M.: On effect of uni and bilateral suprarenalectomy upon some blood constituents of rabbits 200
— The effect of the removal of the suprarenals and accessory cortical tissues together upon some blood constituents of rabbits..203
Oikawa, K.: The susceptibility of doubly suprarenalectomized rabbits to nicotine, histamine, ephedrine and typhoid vaccine 439
Okkels, H.: The Golgi apparatus in the thyroid cells in Basedow's goiter 709
O'Leary, W. D.: Carbohydrate metabolism in Mongolian idiots as evidence of endocrine dysfunction 84
— Carbohydrate metabolism in Mongolian idiots as evidence of endocrine dysfunction 204
Oliveira, C.: cf. Coelho.....451
Olivet, J.: The diuretic hormone of the brain 320
Orias, O.: cf. Houssay.....212
Ornsteen, A. M.: A contribution to the pathogenesis and heredity of the Laurence-Biedl syndrome....583

Paal, H.: Thyroid function and the Reid Hunt reaction 453
Page, I. H.: (Pastermak): Influence of adrenaline on the blood and organ lipoids 200
Paik, T. S.: On relation between parathyroid hormone and growth of rat carcinoma 701
Pall: Histophysiology of hormone products 85
Palmer, H. D. (Harrow and Schwartz): Osteitis fibrosa cystica of the skull associated with heminaopia psychotic symptoms..701
P'an, M. T.: cf. Jackson.....146
Parfentieff, I. (Sokoloff): Studies on the lipolytic power of the adrenal gland 439
Parhon, C. I. (Ballif and Stirbu): Action of serum from a male animal on combs of capons..... 91
— — Studies of the effects of serum from acromegalics on the growth of young animals....212
Parhon, C. I. (Cahane): Calcium content of the brain and kidney of animals receiving Collip's parathormone 219
— — The calcium and water content of cardiac muscle in hyperthyroidized animals 453
— (Derevici): The syndrome developing after simultaneous removal of the thyroids, parathyroids and testes. Survival time and changes in blood chemistry.223
— (Derevici and Derevici): Effect of bleeding and of a single injection of Collip's parathormone on blood. Calcium, sugar and cholesterin in normal hyperthyroid and thyroidectomized animals 595
— (Marie Briese): The presence of a virilizing substance in the urine of a young woman suffering from virilism 309
— (Mavromati): The resorption of physiologic solution injected intradermally and subcutaneously in a myxodematous idiot. Relation between the thyroid and tissue fluid 106
— (Werner): Brain phosphorous in experimental hyperthyroidism..223
— — Phosphorous content in the brain and spinal cord of animals after repeated injections of adrenin 677
— — On the total phosphorus of the brain and spinal cord of dogs treated with thyroid gland, tryroxin, parathyroid hormone or with thyroid and parathyroid combined 595
— — Studies on the condition of phosphorous in parathyroidectomized and thyroparathyroidectomized animals 101
— cf. Teitel-Bernard 589, 699
Parhon-Stefanesco, C.: Increase in transparency of bones when x-rayed, after injections of Collip's parathormone 701
Parkes, A. S.: cf. Hill.....210, 690
Paroli: Research studies and clinical results on diathermy of the thyroid on the essential metrorrhagias 595
Parsonnet, A. E. (Hyman): Insulin angina 217
Parvey, B.: Recent advances in physiology of reproduction in relation to Zondek-Aschheim test for the early detection of pregnancy.225
Pasternak, L.: cf. Page.....200
Patalano, A.: cf. La Barre.....445
Patel, J.: cf. Loeper.....676
Peck, R. I.: cf. Barlow.....447
Peckham, C. H.: Diabetes mellitus and pregnancy 698
Peeler, D. B.: cf. McQuarrie.....693
Pekarek, E.: cf. du Vigneaud.....699

Pellegrine, G.: The action of ether extracts of testicular powder on castrated fowls 575
Pemberton, J. deJ. (Willius): Cardiac features of goiter 709
Pencharz, R. I. (Long): The effect of x-raying one ovary of a rat on a subsequent pregnancy after removal of the normal ovary during the course of gestation 575
— cf. Reichert 445
Penna de Azevedo, A.: cf. Villela..711
Perez, M. L.: Studies on the cause of parturition in women.....310
Perla, D. (Gottesman): A substance in urine of normal human adults that raises the resistance of suprarenalectomized rats 80
— — Effect of injections of cortin on resistance of suprarenalectomized rats to histamine poisoning 80
— — Injections of cortin on resistance of suprarenalectomized rats. Biological assay of extracts of suprarenal cortex.. 79
— cf. Gottesman 78
Petit-Dutaillis, S.: cf. Kepinov..... 99
Petzetakis, M.: Effect of intravenous injections of adrenin on heart. Terminal fibrillation. Electrocardiographic studies 563
Pfiffner, J. J.: cf. Greene.....675
— cf. Nelson 84
— cf. Rowntree 300
— cf. Swingle 81, 564
Phil'pp, E.: Anterior pituitary and placenta 584
— The site of formation of the "anterior pituitary" hormone in pregnancy 96
Phillips, R. A.: cf. Freeman.....202
Pietsch, K.: Structure and development of pars tuberalis of the human hypophysis and its relation to the other portions of the hypophysis 320
Pike, F. H.: cf. Coombs.....560
Plaut, A.: The hypophysis of an orang-utang, together with remarks on the so-called pars intermedia of man and man-like apes.321
Plummer, H. S.: Incidence of exophthalmic goiter in Olmstead County, Minn. 106
Podhradsky, J.: Influence of thyroid and thymus on growth of castrated and non-castrated Italian partridge cocks 107
— cf. Nevalonnyj 105
Poleff, L.: Action of adrenin on local immunization with staphylcoccus antivirus 677
Polhemus, Irene: cf. Riddle 446
Popoff, H.: Collection of illustrative cases of hypophyseal infantilism 445
Popoff, N. W.: Testicular tubular adenoma of the ovary; its eiologic relation to embryonic vestiges and spontaneous sex reversal of the female gonads. Report of a case..310
Popoviciu, G.: cf. Nitzescu.....591
Potick, D. (Re): Triptophane in blood and tissues after thyroidectomy and pancreatectomy.....204
Potter, I. W.: cf. Hartman.....155
Pratt, J. P.: Ovarian therapy..... 45
Price, Dorothy: cf. Moore.....574, 583
Priestley, J. T. (Markowitz and Mann): The tachycardia of experimental hyperthyroidism 223
Ptasker, L.: Effect of diathermy on the basal metabolism as an indication of the hormonal activity of the testes in dogs. Use of the diathermic reaction for the study of testicular insufficiency following resection of the ductus deferens 442
Ptaszek, L.: cf. Elmer.....580
Pucsko, O.: The influence of injections of sucrose and invert sugar upon ketonuria and ketonemia in diabetes mellitus 326

Racchiusa, S. (Crisera): The so-called influence of the suprarenal medulla on alimentary hyperglycemia 201
Räihä, C. E.: Effect of insulin on the thyroid gland 453
— (Grönlund): Action of insulin on intra-ocular pressure 698
Raik, T. S.: Relationship between the parathyroid hormone and the growth of rat carcinoma.....219
Rall, R.: cf. McJunkin.....635
Ramm, C.: cf. Lauber.....308
Ramos, S.: cf. LeGrand 333
Raspopova, N.: On the action of thyroid gland and of thyroxine on moulting and feather structure in geese 595
Rathery, F. (Gibert and Laurent): The delayed variations in the glycogen of the liver.....326
— — The late variations in liver and muscle glycogen in depancreatized dogs given repeated doses of insulin.....326
Ratti, P.: cf. Asher.....220
Raynaud, R.: The sensibility of auto grafts of vaginal mucosa of guinea pigs to folliculin 207
Re, P. M.: cf. Potick.....204
Regnier, V.: cf. Caridroit.....304
Reichert, F. L. (Pencharz, Simpson, Meyer and Evans): Ineffectiveness of Prolan in hypophysectomized animals 445

Reicker, H. H.: A clinical study of myxedema in Michigan.....595
Reilly, W. A. (Lisser): Laurence-Moon-Biedl syndrome.....337
Reinwein, H.: Observations on the complex symptoms which accompany hypoglycemia.....326
Reiss, M.: Studies on the function of the adrenal cortex. III. Adrenal cortex and cholesterol metabolism 300
Reiss, M. (Haurowitz): Chemistry of the sex horomone of the anterior lobe of the pituitary gland.... 96
— (Selye and Balint): Concerning the luteinizing principle of the anterior lobe of the hypophysis. 96
— — The effect of anterior pituitary luteinizing hormone on the male genital organs.....321
Reveno, W. S.: The cause of exophthalmic goiter; a biochemical hypothesis 454
Revol, L.: cf. Leulier.....676
Reynolds, S. R. M.: Humoral factors affecting uterine motility.....193
— Studies on the uterus. V. The influence of the ovary on the motility of the non-gravid uterus of the unanesthetized rabbit....442
Ribiere, M. (Chiapponi): A convenient method for extracting folliculin 310
Richardson H. B.: cf. Loeb.....203
Riddle O. (Braucher): Studies on the physiology of reproduction in birds. XXX. Control of the special secretion of the crop-gland in pigeons by an anterior pituitary hormone 321
— (Polhemus): Studies on the physiology of reproduction in birds. XXXI. Effects of anterior pituitary hormones on gonads and other organ weights in the pigeon 446
Riser M. (Sorel): Studies on the cerebral circulation. Action of adrenin 201
Riskin, A. M.: cf. Barnes.....450
Ritter, J.: The duality of diabetes mellitus and pulmonary tuberculosis 588
Robinson, I. A.: cf. Karlik.....691
Rocha, A.: cf. Martins.....445, 583, 693
Rocheta, J.: cf. Coelho 221
Roeder, P.: cf. Bland.....679
Rogemont, L.: Variations in the sugar level in castrates.....207
Roholm, K.: Clinical investigations into the effect of intravenous injection of insulin. V. The action of adrenalin upon the stomach secretion 300
Rony, H. R.: Juvenile obesity.....601
Rosenberg, M.: Snuff-powder therapy of diabetes insipidus with various posterior pituitary preparations...322
Rosenblueth, A.: The sensitization by cocaine of gastric and uterine smooth muscle to the inhibititory action of adrenin 201
— (Cannon): Studies on conditions of activity in endocrine organs. XXVIII. Some effects of sympathin on the nictitating membrane 679
Rosenfeld, S. (Durrant): Effect of ovarian substances on excised rat uterus 684
Rothschild, Eva: cf. Loewe.....684
de Rudder, B.: Simmond's hypophyseal cachexia in childhood.....694
Roux, J.: cf. Barral.....587
Rowe, A. W.: Possible constitutional elements in the behavior problems of the young.....303
— Vital function studies. VIII. Weight calculation in pregnancy 91
Rowntree, L. G. (Greene, Ball, Swingle and Pfiffner): Treatment of Addison's disease with cortical hormone of suprarenal gland.....300
— cf. Ball.....559
— cf. Greene.....675
Royer, M.: cf. Houssay.....212
Rucker, M. P.: The action of thymophysin on the human pregnant uterus in situ.....102
Ruckert, W.: cf. Burger..... 98
Ruedemann, A. D.: Ductless glands as they appertain to eye diseases and to surgery.....568
Ruiz, R.: New form of Hodgkin-Paltauf-Sternberg's disease; Addison's syndrome and granulomatosis 563
Rywkin, I.: cf. Berliand.....332

Sacharoff, V.: On the action of the thyroxine on the bile secretion...596
Sainton, P. (Simonnet): Familial over thyroidizing in chickens.....596
Sakamoto, A.: Myasthenia gravis and internal secretion.....204
Sakharoff, G. P.: Shall the spleen be considered as an organ of internal secretion? 591
Samson, P. C. (Jacobs): Some chemical effects from constant intravenous epinephrine injections in dogs 677
Samuels, L. T.: cf. Moore.....441
Sanes, S.: cf. Terplan..... 69
Santenoise, D. (Brieu, Fuchs, Louyot and Vidacovitch): Association of vagotonic pancreatic extract (vagotonic hormone) with insulin in diabetes 698
— (Verdier and Vidacovitch): Insulin and liver glycogen.....696
— cf. Brieu.....696
Sapegno, E.: cf. Ceruti.....216
Sarafanov: cf. Zavadovsky.....324
Savitsky, N.: cf. Wechsler.....335
Scaglione: Fibroma of the uterus and hypophysis 584

Schäfer, W.: The effect of anterior pituitary lobe upon growth and fat accumulation 694

Sokoloff, B.: cf. Parfentieff.....439
Solari, L. A.: Body temperature changes in.....585
— Temperature and thermal reactions of hypophysectomized dogs..213
Sorel, R.: cf. Riser.....201
Soskin, S. (Binswanger and Strouse): Jerusalem artichokes and liver in treatment of diabetes mellitus...326

Soule, S. D. (Brown): Anterior pituitary hormone in the cerebrospinal fluid during pregnancy.....695
Spencer, J. (D'Amour and Gustavson): Effects of continued estrin injections on young rats.....684
—— Further studies on estrin-hypophyseal antagonism in the white rat.....647
Speranska-Stepanova, E. N.: The influence of the thyroid-parathyroid system and the sympathetic nervous system on the blood-serum calcium 709
Spichtin, W.: cf. Abelin.....220
Spiers, M. A.: cf. Himwich.....302
Squier, R. R.: cf. Hartman..... 95
Ssacharoff, P.: cf. Berliand.....332
Staffe, A. (Janoschek and Scheimpflug): The composition and properties of milk from castrated cows 442
Stahl, J.: cf. Aron.....577, 695
Stahnke, E.: Experimental research on the action of thymus extirpation upon goiter production.....331
Stamm, E.: The insulin-sensitivity of nondiabetic humans and its relationship to the vegetative nervous system 217
Stanley, L. L. (Tescher): Weight of gold fish influenced by testicular substance diet.....153
Starns, C. E.: The symptomatology of hypothyroidism 223
Steel, J.: The properties of the adrenal lipoid.....677
Stefko, W.: Pathology of the thymus and thyroid gland during inanition 85
Steinhaus, A. H. (Jenkins): Studies in the physiology of exercise. IV. Further concerning exercise and basal metabolism in dogs.....569
Stickels, A. E.: cf. Macht.....441
Sterting, W.: The Lawrence-Biedl syndrome 695
Stevens, J. J.: Roentgen rays and radium in toxic goiter and hyperthyroidism 709
Stirbu, A.: cf. Parhon.....91, 212
Stockinger, W. (Berchtold): Effect of anterior pituitary on leucocyte counts 585
Strauss, I. (Globus): Simmond's disease. Fatal issue; neocropsy findings. Case 6.....323
Streck, A.: The application of oestrous hormone therapy in practice 311
Strecker, E. A.: Hypopituitary disease with hemiplegia, hypertension, and an atypical sugar tolerance curve.....585
Stricker, P. (Grueter): Anterior lobe of the hypophysis and rupture of the follicle in rabbits.....213
Strouse, S.: cf. Soskin.....328
Stschedrowitzky, S. G. (Lopatina and Korabelnikowa): The part played by the endocrine glands in active immunity 569
Sturn, A.: Respiration of the thyroid gland 107
Suden, Caroline, T.: cf. Wyman... 81
Sugarman, E. I.: cf. Dorn.....572
Sugiura, K.: Further study on the influence of an aqueous extract of suprarenal cortex on the growth of carcinoma, sarcoma and melanoma in animals 201
Swezy, Olive: cf. Evans 305
Swingle, W. W. (Pfiffner): On the cortical hormone of the adrenal gland 81
—— Studies on the adrenal cortex; further observations on preparation and chemical properties of cortical hormone...564
— cf. Greene 675
— cf. Rowntree 300
Szarka, A.: The influence of the oestrus cycle on the basal metabolism of rat 208

Tada, H.: On the hypoglycaemic action of insulin upon doubly suprarenalectomized rabbits 588
Tashiro, S. (Schmidt): The relation of thyroid activity to the production of gastric ulcer by bile salts 710
Taylor, N. B. (Weld, Branion and Kay): A study of the action of irradiated ergosterol, and of its relationship to parathyroid function 330
Teel, H. M.: Basophilic adenoma of the hypophysis with associated pluriglandular syndrome 585
Teitel-Bernard, A.: Action of insulin on the isolated mouse uterus..589
— (Parhon): Effect of insulin treated with acetyl on the volume of the spleen and on the arterial pressure in the dog...589
—— The mechanism of splenic contraction produced by insulin in dogs.....699
Tenery, W. C.: cf. Gammon.....215
Terplan, K. (Sanes): Pathological report of a case of Addison's disease treated with cortin..... 69
Tescher, G. L.: cf. Stanley.....153
Thannhauser, S. J.: Diabetic therapeutics 589
Thatcher, H. S.: cf. von Haam.....666
Thayer, A. (Levin and Doisy): Characterization of theelol.....576
Thayer, S. A.: cf. Doisy.....681
Thienes, C. H. (Hockett): Decreased absorption from the alimentary tract following injection of posterior pituitary extract.....213
Thies, O.: Iritis and menstruation. Considerations concerning the relation of endocrine secretions.... 91

Thivolle, L.: cf. Fontes.....333
Thomas, H. M.: The heart in hyperthyroidism 454
Thomas, P. C.: cf. Siegel 301
Thompson, K. W.: Technique for hypophysectomy of rat.....257
Thompson, Phebe K.: cf. Thompson 223, 710
Thompson, W. O.: Nervous manifestations of exophthalmic goiter at different stages of the disease....487
— (Thompson): Exophthalmic goiter. The development of refractoriness to iodine 223
— — Fallacies and dangers in the treatment of exophthalmic goiter by iodine 710
Thomson, J. S.: cf. Collip..... 86
Thorn, G. W.: cf. Hartman....155, 562
Toland, C. G.: cf. Askey.....103
Tonnet, J.: cf. Loeper.....334
Topper, A.: Basal metabolism in diabetic children 217
— The effect of thyroid extract on undernourished children 224
Tournade, A.: The central action of adrenin 677
— (Hermann and Malmejac): Secretion of adrenin following stimulation of the cranial and spinal meninges 565
— (Hermann and Jourdan): Curare and secretion of adrenin.....677
— (Malmejac): The vaso-sensory nerves and adrenin secretion..302
Trancu-Rainer, M.: Elimination of the sex hormones by the salivary glands 685
Trimble, H. C. (Carey): True sugar control of skin and of muscle in diabetic and non-diabetic persons.100
Tschernozatonskaia, E. P.: Further studies on erythrocyte sedimentation time in relation to function of thyroid gland 397
Tuttle, G. H.: The presence of a distinct insulin in depancreatized dogs 589
Turcu, T.: Agglutination of colon bacilli from goiter cases by serum from goiter patients 710
Turner, C. W. (Frank): The effect of the estrus producing hormone on the growth of the mammary gland 92
— — The relation between the estrus producing hormone and a corpus luteum extract on the growth of the mammary gland 92
— (Frank, Lomas and Nibler): A study of the estrus producing hormone in the urine of cattle during pregnancy 92
— (Gardner): The relation of the anterior pituitary hormones to the development and secretion of the mammary gland 446
Turner, C. W. (Schultze): A study of the causes of the normal development of the mammary glands of albino rat 443

Urmy, T. V. (Jones and Wood): A case of diabetes mellitus and fatty diarrhea due to carcinoma of the pancreas. Treatment with very high carbohydrate diet and insulin 449

Valenzuela, O.: Spontaneous hypoglycemia 699
Van Buskirk, F. W.: cf. Abbott....565
Van Caulaert, C. (Aron and Stahl): The presence of the hormone of the anterior lobe of the hypophysis which excites the secretion of the thyroid in the blood and cerebro spinal fluid, and its recovery from these fluids and from the urine 695
— cf. Aron 577
Van de Carr, F. R.: cf. Lyons.....574
Van Dyke, H. B.: cf. Gustavson....206
— cf. McIntyre 319
— cf. Wallen-Lawrence 324
Velhagen, K.: Pituitary (posterior lobe) extract and insulin.....213
Verbrycke, J. R., Jr.: Masked gastro-intestinal hyperthyroidism. Report of thirty-four cases 108
Verdier, H.: cf. Santenoise.....696
Veshnjakov, S.: cf. Lipschütz..... .....90, 573, 684
Victor, A. W.: cf. Koster.....562
Vidacovitch, M.: cf. Brieu.....696
— cf. Santenoise 696, 98
Vidgoff, B.: Posterior pituitary therapy in diabetes insipidus 289
du Vigneaud, V. (Fitch, Pekarek and Lockwood): Inactivation of crystalline insulin by crysteine and glutathione 699
Villela, G. G. (Penna de Azevedo): Studies in the normal thyroid in Rio de Janeiro 711
Vinogradova, T.: cf. Zavadovsky..324
Vogt, M.: Physiological proof of sympathetic innervation of the pituitary gland 585
Vogt-Möller, P.: On the pathogenesis of exophthalmic goiter. Decrease in elimination or in destruction of thyroxin? 334
Von Monakow, P.: Anterior lobe of hypophysis and growth.....323
Vigor, W. N.: cf. Barlow.....447
Voss, H. E.: cf. Loewe.....684

Wada, M.: cf. Yen.....201
Wagschal, L.: The Golgi apparatus and its position in the case of experimentally produced overactivity of the thyroid.....711
Wahncau, E.: cf. Bertram.....587

Walinski, F.: Attempted treatment of psoriasis with "Prolan" (pituitary anterior lobe hormone).....323
Wallace, H. L.: Hyperthyroidism; a statistical presentation of its symptomatology 335
Wallen-Lawrence, A. (Van Dyke): The gonad-stimulating substances of the anterior lobe of the pituitary body and of pregnancy-urine.324
Waring, J. I.: Mongolism in one of twins 204
Warner, F. J.: Histopathology of experimental diabetes insipidus..695
Watrin, J. (Florentin): Concerning the cause of milk secretion 685
——The thyroid and the genital tract 711
— cf. Collin 566
Watrin, M. (Brabant): The biologic interpretation of the Zondek reaction 685
Watson, E. M.: The percentage of eosinophils in blood smears from insulin-treated diabetics.....100, 449
Webster, B.: Studies in the experimental production of simple goiter 617
— (Chesney): Studies in the etiology of simple goiter 107
Wechsler, I. S. (Savitsky): Hyperthyroidism associated with Parkinsonian syndrome 335
Weichert, C. K.: Effect of experimental hyperthyroidism on reproductive processes of female albino rats 108
Weiss, A. G. (Monguio and Bernard): Effect of parathyroidectomy on the blood calcium 591
Weld, C. B.: cf. Taylor.....330
Werner, A. A.: Syphilis of the pituitary gland producing acromegaly 586
Werner, C.: cf. Parhon.....595
Werner, G.: cf. Parhon...101, 223, 677
Weser, W.: The roentgenographic treatment of feeble-mindedness in children 679
White, M. R. (Severance): Comparison of pregnancy tests 311
White, W. E.: cf. Smith.....576
Whitehead, R. W. (Huddleston): Diffusibility of "female sex hormone" into the spinal fluid and its relationship to the oxytocic activity of the spinal fluid 312
Wible, C. L.: The catamenia and oxygen consumption 312
Wiesbader, H.: cf. Eufinger.....206
Wiesner, B. P.: cf. Lambie.....318
Wilckens, E. A.: cf. Lipschütz.....684
Wilder, J.: Spontaneous hypophyseal hypoglycemia 446
Wilder, R. M. (Johnson): Experimental chronic hyperparathyroidism: Metabolic studies in man....102
Will, G.: The suprarenals and tissue residual nitrogen 565
Williams, J. B.: Diabetic pyorrhea.327
Williams, J. R.: Extensive atrophy of subcutaneous fat following the repeated injections of insulin.....589
— The insulin coefficient, an improved method for the clinical control of diabetes mellitus....450
Williams, W. L.: cf. Burch.....578
Williamson, J. E.: cf. Collip..... 86
Willius, F. A.: cf. Pemberton.....709
Wilson, I. H.: cf. McClendon..... 89
Wilson, K. M. (Corner): The results of the rabbits ovulation test in the diagnosis of pregnancy....576
Wishnofsky, M. (Byron): The respiratory quotient. Its use in the diagnosis of diabetes mellitus....100
Wislicki, L.: Action of thyroid on spleen and blood volume 454
Wohl, M. G.: Diabetes mellitus and the gastric secretion 700
Wolfe, J. M. (Cleveland): Comparison of the capacity of anterior hypophyseal tissue of mature and immature female rabbits to induce ovulation 696
— cf. Burch 541, 578
— cf. Cleveland 579
Womack, E. B. (Koch): Studies on extraction of testicular hormone from tissues and on its quantitative distribution therein 267
——Testicular hormone content of human urine 273
Womack, N. A. (Gnagi and Graham): Adenoma of the islands of Langerhans with hypoglycemia: Successful operative removal.....218
— cf. Cole 335
Wood, Josephine, C.: cf. Urmy....449
Wortis, S. B.: cf. Coombs.....560
Wright, I. S.: Hereditary and familial diabetes mellitus 100
Wyalkova, P. A.: cf. Danilevskii... 98
Wyman, L. C. (Lutz): The effect of adrenalin on the blood pressure of the elasmobranch, squalus acanthias 677
— (Suden): Vascular responses to histamine in suprarenalectomized rats 81

Yater, M.: The tachycardia, time factor, survival period and seat of action of thyroxine in the perfused hearts of thyroxinized rabbits 224

Yen, T. J. (Kaiwa and Wada): Influence of the piqûre of Cl. Bernard upon the epinephrine discharge, the blood sugar content and the blood pressure 201
Yriart, M.: Sugar formation from phosphatids 218
— Thyroidectomy and pancreatic diabetes 224

Zaharescu-Karaman, N. (Nastase): The genital crisis of the new-born produced by the ovarian sex hormone 443
Zaleski, W.: cf. Buccheim.....440
Zavadovsky, B. (Vinogradova and Sarafanov): Contributions to the comparative physiology of the frontal lobe of the hypophysis....324
Zeckwer, I. T.: Spontaneous insulin resistance in rabbits. The effect of thyroidectomy on the response to insulin 101
Zerfas, L. G. (Koehler): Response of the reticulocytes in the treatment of two patients with pernicious anemia fed organic material obtained from the suprarenal cortex 82
Ziegler, K.: Bilateral ovarian changes in unilateral injury .....
Zondek, B. (Berblinger): Influence of female sex hormone and of hormones of anterior lobe of hypophysis on hypophysis of rats...586
Zunz, E.: The anti-diuretic action of extracts of the posterior lobe of the hypophysis 324
— (La Barre): Does the exocrine activity of the pancreas influence the secretion on insulin?..101
— — Is the increase in insulin which follows injections with adrenalin of pancreatic origin? 570

Subjects

Abderhalden reaction and hypophysis and ovarian extract 93
Acromegaly and diabetes.....318
——syphilis of hyophysis.....586
—serum of, and growth of young animals 212
Activity and testis hormone.....626
Addison's disease and cortical horhone of adrenal.....300
——cortin in..... 43
——metabolic studies in.....675
——pathology of..... 69
——roentgenographic study in.....559
——treated with adrenal cortex extract 285
—syndrome and granulomatosis....563
Adiposogenital dystrophy and diabetes mellitus.....444
Adrenal ablation and alimentary hyperglucemia 201
————blood constituents of rabbits 200, 203
————blood pressure following peripheral splanchnic nerve stimulation 299
————coagulation time of blood...439
————histamine poisoning, effect of injections of cortin on.. 80
————hypersensitiveness to intoxication 200
————hypoglycaemic action of insulin 588
————muscular fatigue 562
————susceptibility to toxins.....439
————tumor growth.....676
————vascular response to histamine 81
————vital hormone of adrenal cortex 79
——bilateral, and effects of absinthe 560
——in marsupial hibernation.....437
—— in rats and effect of cortin injection on resistance to toxins 79
————————substance in urine of normal human adults 80
—abscess and medullary reaction in cortical substance.....675
—adrenalin content of.....439
—and death from extensive superficial burns.....297
——erythrocyte volume 666
——estrin administration.....203
——eye disease.....568
——hypertension 20
——hypoglycemia 29
——immunological studies..... 78
——pregnancy 676
——red blood cells.....297
——tissue residual nitrogen.....565
—cortex and cholesterol metabolism 300
————hypophysis ablation in rat..322
————sex organ relationship.....300
——chief function of.....633
Adrenal cortex extract and development of testes 199
————malignant disease.....559
————tumors 298
————survival of decapsulated guinea pigs.....300, 438
————toxins 562
——function of.....521
——hormone 77
————and Addison's disease.....300
————Paget's Disease of the bones 109
————in Addison's disease.....675
————new method for separation of adrenalin from..... 81
——nature and structure of.....563
——studies 564
——substance and pernicious anemia 82
——treatment in vomiting of pregnancy 434
——vital hormone of.....79, 562
—(cortical) extract and precocious sexual maturity.....560
————effect of, on ovary.....639
————oral administration of.....560
——obesity, operative treatment of.562
—determination of area for irradiation of.....299
—distribution of lipoidal phosphorus in 676
—effect of follicular hormone on....302
————hypoglycemia on cellular activity of.....566
————removal of, on blood sugar after lumbar sympathectomy 567
—exhaustion, experimental..... 78
—extract, action of, on local immunization 677
————————red blood cells.....299
————————cellular metabolism....562
————————cerebral circulation....201
——and acetyl-choline..... 98
————amino acid increase in blood.675
————blood and organ lipoids.....200
————fat 302
————pressure 677
————cancer 201
————cardiac muscle.....199
————catatonia 440
————circulation 437
————cocaine sensitization 201
————glycogen distribution.....567
————growth in tadpole..... 82
————hexose-phosphate content of muscle 561
————hypersensitiveness to intoxication 200
————hypophysis 691
————insulin 85
————action of, under anaerobic conditions 566
——and insulin increase 570
————metabolism of rabbit.....202
————muscle glycogen.....199, 200
————sugar 297
————myasthenia gravis.....204

Adrenal extract and phosphorus content in brain and spinal cord 677
———rate of isolated heart.....105
———small intestine.....302
———sugar content of cerebrospinal fluid 448
———thyroid respiration.....107
——blood sugar response to, after thyroid feeding.....565
——calorigenic action of, after liver ablation 560
——central action of.....677
——cromaffin reaction of.....298
——(cortin) and body temperature.298
———in Addison's disease..... 43
——effect of intravenous injections of, on heart.....563
———on blood cholesterin 303
———carbohydrate metabolism, basal metabolism and vascular system 297
———nictitating membrane ..679
———proliferative activity of cells of adrenal medulla 635
———spinal fluid pressure...676
——in experimental carcinoma and sarcoma of rats.....302
——influence of one stomach secretion 300
——in hepatic disease 203
——injection, chemical effects of..677
——insulin, and sympathetic nervous system..... 98
——nitrogenous metabolism and glycemia in hypophysectomized dogs.....199
——secretion and curare.....677
———stimulation of cranial and spinal meninges.....565
——successful use of.....285
—genital syndrome 564
—glands, calcification in tuberculosis of.....559
——tumors of 563
—glutathione in, during gestation... 77
—graft, effect of hypotension on secretion of.....437
—hemorrhage in meningococcic bacteremia 438
———new-born 165
—insufficiency and acute peritonitis 79
——during pregnancy and cortin..155
——etiology and clinical aspects of.675
—irradiation and glycemia.....676
—lipoids, properties of.....677
—medulla, effect of adrenal extract on proliferative activity of.....635
——secretions of.....437
—operation and recurrent hyperthyroidism 561
—pathology of, in Addison's disease. 69
—relation between cortical and medullary portion of, in mammals.299
—secretion and vasomotor nervous system 439
—studies on lipolytic power of.....439
—tissue extract of toad, effect of..560
—tumor and pseudohermaphroditism 675
Adrenal, vascularization of 437
—vein blood and blood sugar..... 77
Adrenin and ergotamine, effect of on blood cholesterine.....303
—content in suprarenals.....301
—like substance sympathol.....438
Amenorrhea and ovarian therapy.. 45
Anemia in myxoedema 533
Anterior hypophysis hormone and calcium content of serum of cattle. 87
———follicular constancy 90
———hyperplasia of endometrium 94
Anterior lobe extract and follicular rupture in rabbits 213
———metabolism 208
——hyperpituitarism, observations on 611
——of hypophysis and cancer of uterus 211
———luteinizing principle of... 96
——substance, follicle stimulating effect of..... 95
—pituitary deficiency in mouse.....213
——extracts and ovulation.....83, 308
———sterilization 90
———thyroid 313
——hormone and menstruation....212
———in pregnancy..... 96
———treatment of psoriasis....323
——like hormone of placenta..... 86
——lobe substance by mouth..... 96
——luteinizing hormone.....321
———substance and uterine bleeding 319
——powder and ovary.....212
——sex hormone..... 96
——specificity in action of.....129
Aschheim-Zondek pregnancy test.. .....93, 304
—reaction, follicular hemorrhage in 93
———new method for.....578
——test 680

Basal metabolic rate and thyroid medication 455
———low, in asthenics.....704
—metabolism and adrenal extract..297
———diathermic treatment of testes 442
———hypophysis ablation.....686
———extracts 208
———oestrous cycle 208
———ovarian hormone 89
———posterior lobe.....315
———pituitary extracts.....210
——in diabetic children.....217
———dogs 569
———normal infants.....568
——rats in late pregnancy.....310
Basedow's disease and tetany.....369
——clinical anatomical biological parallels in.....332
——Golgi-apparatus in thyroid cells in 709
——Iodine metabolism in.....221
——treated with myxedematous thyroid gland.....452
Blood calcium and parathyroid ablation 591

Blood calcium and vitamin D after parathyroid ablation 450
— picture in goitre.....593
— pressure and goiter.....103
— sugar and adrenal vein blood..... 77
— — — castration 207
— — — posterior lobe extract.....689
— — changes under various experimental conditions.....324
— — content and piqûre of Cl. Bernard 201
— — effect of castration and thyroid ablation on.....223
— — — — injections of trypsin on...587
— — response to epinephrin after thyroid feeding.....565
Bone formation and parathyroid extract 547

Calcium and endemic goiter.....103
— in relation to cataract.....328
— metabolism and pancreas.....696
— — — parathyroid gland.....700
Cancer, effect of adrenal cortex and testis extracts on 302
Carbohydrate metabolism and adrenal extract.....297
— — in mongolian idiots.....84, 204
— — studies in.....216
Cardic vascular system in goiter....104
Carotid body, classed as paraganglion? 300
Castration and blood sugar.....207, 223
— — action of hypophysis.....315
— — composition and properties of milk from cows.....442
— — hyperfeminization in male rabbits 308
— — hypophysis implantation.....690
— — involution of thymus.....701
— — moulting in ducks.....304
— effect of, on anterior lobe.....445
— — — — scent glands of goat.....571
— — — thyroid extract on alimentary lipemia after.....333
— unilateral, and compensatory hypertrophy of remaining testicle.440
Catamenia and oxygen consumption.312
Cholesterol metabolism and adrenal cortex 300
Climacteric and intersexualities.... 89
Climate and metabolic diseases.... 52
Corpus luteum, action of folliculin on 572
— — and oestrin excretion.....310
— — — ovulation 88
— — — uterine activity.....193
— — effect of "gravidin" on.....571
— — extract and mammary gland growth 92, 443
— — — — oestrin, effect of, on uterus 441
— — — — ovary ablation in.....278
— — — effect of, on genital tract of normal and castrated female 573
— — formation and hypophysectomy 576
— — hormone and hypophysis.....691
— — implantation and oestrus..... 83
— — in a case of diabetes insipidus.326
Cortin in Addison's disease.....285
— — adrenal insufficiency of pregnancy 155
Creatinuria in hyperthyroidism.....104
Cryptorchidism, experimental in immature guinea pigs 306

Diabetes, a study of 500 cases.....100
— after hypophysectomy and pancreatectomy 326
— and acromegaly.....318

Puberty and anterior lobe of hypophysis 90
——intersexualities 89

Reproductive and hypophysis ablation 578
—effect of estrin on 684
—in female albino rats and experimental hyperthyroidism 108
—physiology of, in birds 321, 446
Reproductive cycle, metabolism of women during 304
—organs and hypophysis ablation in rat 322
Respiratory quotient and diabetes mellitus 100

Seminal vesicle grafts in mice.....574
Sex and functional differences in hypophysis 319
—cycle and folliculin 304
——immunologic aspects of 574
——in birds, studies on..... 85
————rats, effect of insulin on....214
—glands and hypophysis implantation 690
———juvenile obesity 601
--hormone and ovary tumor.....679
———sympathetic nervous system.440
——antagonism 574
——chemical investigation of.....680
——elimination of, by salivary glands 685
——masculine, from urine and assay by comb method 307

Sex hormone of anterior pituitary.. 96
— organs and calcium content of serum of cattle 87
— — of guinea pigs, and anterior pituitary 129
— — relation of to adrenal cortex...300
— reversal 206
— transformation in parabiotic amblystoma 85
Sex, influence of ischemia on evolution of elements in.....679
— regulating hypophysis 583
— tissue and comb growth stimulating hormone 267
— transplantation of 682
Sexual hormone of hypophysis 580
— maturity and adrenal extract....559
Simmond's disease in childhood....694
— — necropsy findings in case of...323
— — treated with anterior lobe extract 686
— — cases of 95
Spleen, an endocrine organ.....701
— — organ of internal secretion ...591
Sterility and ovarian therapy..... 45
Sugar control of skin and of muscle in diabetics and non-diabetics....100
— metabolism and hypophysis 446
Sympathetic nervous system, effect of removal of on blood sugar.....567

Temperature and thermal reactions of hypophysectomized dogs 213
— action of extracts of anterior lobe and pregnancy urine on...506, 513
— — — urine of pregnancy on.....680
— and comb growth promoting substance 86
— — hypophysis 693
— development and adrenal cortex extract 199
— — — after injections of urine of pregnancy 680
— diathermy of, and basal metabolism 442
— extract and comb growth 303
— — — growth in tadpole..... 82
— — — weight 153
— — effect of on comb growth.....575
— — in experimental carcinoma and sarcoma of rats.....302
— — use of, in gigantism.....611
— hormone and oestrous cycle.....441
— — and spontaneous activity 626
— — — vitamin B deficiency 441
— — extraction, distribution and action of 441
— — reaction of ovary to 206
Testicle transplants, lasting effects of 683
Testicular grafts, effect of, on anterior lobe 445
— hormone content of human urine.273
— — extraction of, from tissues....267
Tetany and diffusible calcium of the blood stream 328
Thermal reactions and temperature of hypophysectomized dogs 213
Thymus and anterior lobe extract..584
— — estrin administration 203
Thymus and growth 220
— — Hassall's corpuscles 331
— — lymphatic system 701
— — thyroid antagonism 594
— effect of castration on involution of 701
— — — hypoglycemia on cellular activity of 566
— extirpation and goiter production.331
— extract, action of, on human pregnant uterus 102
— — in experimental carcinoma.....302
— gland and anterior pituitary hormone 83
— grafts 701
— influence of on skeleton formation 105
— — — pregnancy on 102
— — on growth 107
— origin of Hassall's corpuscles in.591
— pathology during inanition 85
— relation of, to other endocrine organs 591
Thyroid ablation and blood iodine..690
— — — elimination of urinary carbon and nitrogen 333
— — — iodine metabolism 221
— — — insulin 101
— — — pancreatic diabetes 224
— — — structure of hypophysis 439
— — — triptophane in blood and tissues 204
— action of, on moulting and feather structure 595
— — on spleen and blood volume...454
— activity and gastric ulcer 710
— administration and anorexia.....706
— — — obesity 592
— and anterior lobe activity.....312
— — — — extract 584, 686
— — — — hormone 569
— — — pituitary extract 313
— — cardiovascular system 104
— — dietary deficiency of iodin.....146
— — erthyrocyte sedimentation time.397
— — estrin administration 203
— — eye disease 568
— — hypophysis 565, 577
— — — ablation in rat 322
— — — (anterior lobe) extracts....567
— — — disturbances 83
— — insulin 453
— — nystagmus 431
— — specificity in action of anterior pituitary 129
— — tissue fluid, relation between..106
— — thymus antagonism 594
— bud, transplantation of.....592
— cells, Golgi apparatus in, in Basedow's disease 709
— changes according to age.....331
— color reaction of colloid in.....593
— cystological studies on.....332
— denervated 705
— diathermy and metrorrhagia 595
— disease and cholesteremia 593
— disturbances and ocular changes.452
— effect of certain therapeutic measures on protein equilibrium ...334
— — — follicular hormone on.....302

Thyroid, effect of hypoglycemia on cellular activity of 566
— extract, action of, on bile secretion 596
— — administration and iodine metabolism 704
— — and catatonia 440
— — — diazo-reaction 222
— — — diuresis 452
— — — gastric acidity 221
— — — glycogen content of heart..451
— — — — distribution 567
— — — growth in tadpole..... 82
— — — metabolism of rabbit.....202
— — — myasthenia gravis 204
— — — phosphorus of brain and spinal cord 595
— — — pregnancy 107
— — — rate of isolated heart 105
— — — sodium chloride equilibrium of the blood 451
— — — specific dynamic action of sugar 332
— — (synthetic), action of 705
— — and tetany 590
— — — thyroid respiration 107
— — dependence of, on nutrition...594
— — effect of, on alimentary lipemia of dogs 333
— — — on undernourished children.224
— — place and manner of action of.708
— — seat of action of, in perfused hearts of thyroxinized rabbits 224
— — studies on 450
— — synthetic, effect of, on urinary carbon and nitrogen 333
— feeding and blood change 707
— — blood sugar response to epinephrin after 565
— function and cervical sympathetic removal 331
— — — Reid Hunt reaction 453
— — — stimulation of cervical sympathetic 332
— — in pregnancy 702
— gland and iodine metabolism in pregnancy 450
— — colloid release from follicle cell 103
— — production of hyperplasia of, by chemical means 335
Thyroid hormone in blood and urine.264
— hormone in blood and urine.....264
— — in blood of pregnant women.. ..... 220, 706
— — — mother's milk 222
— implantation, effect of, on ovary.711
— influence of anterior lobe hormone on 685
— — — on edema 705
— — — skeleton formation 105
— — — upon poisonous action of various drugs 334
— — on growth 107
— in fowls, factors affecting size and iodine content of 451
— iodine deficiency and 103
— irradiation in exophthalmic goiter.702
— lateral aberrant 451
— malignancy, clinical aspects of...451
Thyroid medication and blood picture 455
— normal, and iodine 65
— overactivity and Golgi apparatus.711
— — — with normal metabolism in early phase 703
— overfeeding in chickens 596
— papilliferous tumors of 708
— parathyroid system and blood serum calcium 709
— parenchyma, experimental regeneration of 705
— pathology during inanition 85
— — in new born 331
— — of, in Addison's disease..... 69
— patients, value of cholesterol determination in 704
— persistence of embryonic structure in 452
— preparations and feather germ indicator 333
— psychosis, diagnosis of 453
— second epithelial component of..708
— secretion and anterior lobe hormone 695
— studies on normal 711
— transplantation in guinea pig....706
— quinine and iodine in disorders of.157
— relation of, to spleen.....454
— respiration of 107
— secretion and quinine 592
— substance and creatinine content of liver and muscles 220
— therapy and menstruation 45
— treatment and anemia of myxoedema 533
Thyroiditis, chronic 705
Thyroparathyroid ablation and blood sugar 223
— — — — — cardiac-moderation 450
— — — phosphorous condition 101
Thyrotoxic circulatory symptoms with low metabolic rate 595
— state, method of estimating 331
Thyrotoxicosis, recurrent cases of..592
Thyroxin, synthetic, action of on chronaxie 333

Urine, effect of injection of on genital organs 303
Uterus and milk secretion 685
— — — pregnancy response 206
Uterus, cancer of, and anterior lobe of hypophysis 211
— effect of corpus luteum extract and oestrin on 441
— fibroma of 584
— hemorrhage, studies on 306
— morphological study of horns of, during sexual repose 682
— motility of, and ovary extract...193
— studies on 442

Vagus substance in blood.....202
Voluntary activity and hysterectomy 86
Virilism in young woman.....309

Water-intake and growth 83

Zondek-Aschheim pregnancy test, recent advances in 225
Zondek reaction, biologic interpretation of 685
